BLOODY DECKS TELL THE TALE

Ship Seized by Mutineers Is Brought Into Port by Her Captors.

STORY OF BUTCHERY

It Is Related by Three Negro Members of the Crew in Irons.

ALL ARE PLACED IN JAIL

[By Associated Press to The Gazette.]

WILMINGTON, N. C., Oct. 12.—Her decks and cabin splotched with blood from the fearful butchery following the mutiny aboardship early Tuesday morning off the North Carolina coast, the schooner Harry A. Berwind of Philadelphia was towed into Southport today. Aboard were the prize crew of the New York schooner Blanche H. King, who were wanted as witnesses against the three negroes shackled and brought to the Cape Fear quarantine station on Wednesday, charged with mutiny and murder.

At the preliminary investigation before United States Comissioner Collier today the men who boarded the Berwind told the story of conditions on the vessel as they found them, and the three prisoners were then introduced at their own request. They gave their names as Robert Sawyer, Henry Scott and Arthur Adams, all negroes. Sawyer and Adams employed counsel, and both charged that Scott did the killing of the five men, with the exception of Capt. Rumill, who disappeared before daybreak Tuesday morning in a manner of which they knew nothing.

Each said he saw Scott shoot the mate on the lee side of the ship and throw his body overboard. Very soon they heard shots below deck in the galley, and a short while thereafter Scott came up again, bearing the body of the cook, a small white man, in his arms, which he cast over the rail. They afterward bound Scott and were steering the vessel as best they could until overhauled by the King.

Scott says all the seamen, four negroes, formed a conspiracy soon after leaving Mobile, September 23, feeling outraged because of short rations. He said he killed no one except Cokeley, the negro seaman found on deck, and that he killed him in self-defense. Cokeley, he claimed, hit him with a stick and shot at him while he was bound. He attempted no explanation of why he had been bound except that his companions wanted to get rid of him after the trouble. He said he saw Cokeley shoot the mate and saw Adams kill the engineer. He does not know how the cook was killed, as the shooting was below the deck.

All of the negroes were held without bail, and are confined in the Southport jail for the federal court in Wilmington in November. Three members of the crew of the schooner Blanche H. King are held as witnesses.

Bossard, who were recently ordered by Judge Vandeventer to answer certain questions which might be asked of them, and to produce the books of their respective paper mills before Special Examiner Taylor of the United States district court, today refused to comply with the order and were adjudged in contempt of court.

Judge Vandeventer sentenced each of the contumacious witnesses to pay a fine of $150 and to be confined in the county jail until purged of contempt. The respondents were released on bail pending the decision of the supreme court on an appeal.

Their testimony was wanted in connection with the suit of the United States against the General Paper Company.

TOKYO FORGETS SORROW WHILE CHEERING BRITONS

Commander of English Squadron Is Given Great Ovation by the Japanese.

[By Associated Press to The Gazette.]

TOKYO, Oct. 12.—Vice Admiral Noel, commanding the British squadron, now at Yokohama, accompanied by a numerous suite, arrived here this morning by special train from Yokohama, and was received at the railroad station by a large number of officials. The British admiral and his party were driven through the streets, lined by thousands, to Hibiya park, where the mayor of Tokyo gave a garden party in honor of the visitors.

From early this morning Tokyo was on the tiptoe of expectancy, anxious to witness the arrival of the admiral representing Japan's great ally. The British union jack was everywhere in evidence.

The feeling of depression of the last few weeks had completely disappeared and had been replaced by buoyant good humor among the crowds. Such a welcome to foreign visitors and such happy crowds in the streets had never before been seen in Tokyo.

COMMITS SUICIDE WHEN DENIED CHANGE OF VENUE

Young Politician of New York Grows Despondent and Kills Himself. Feared Attorney Jerome.

[By Private Wire to The Gazette.]

NEW YORK, Oct. 12.—Armitage Mathews, who was to be placed on trial today on charge of conspiracy in connection with the looting of the estate of William Weisel, committed suicide today by leaping from the bathroom window on the second floor of his mother's home, at No. 327 Central park, west. He was secretary of the Republican county committee and had lost his final appeal for delay in the hearing of the charge against him.

Inquiry at his mother's home brought out the fact that Mr. Mathews had been despondent owing to the fact that a change of venue had been denied him in the trial, and he would therefore be unable to have his case taken out of New York county. He was greatly in fear of District Attorney Jerome, whom he imagined could not give him the impartial trial he desired.

The association also asks that civil action be instituted by the state attorney general looking to the restitution of the money so contributed.

[By Associated Press to The Gazette.]

CLEVELAND, O., Oct. 12.—A furious gale, accompanied by heavy rain and hail, which began early last night, still continued today. At Chardon, O., from six to eight inches of snow have fallen. The electric interurban lines in that vicinity experienced much difficulty in maintaining services early today, while telephone wires were carried down in all directions. The storm has caused Lake Erie to become very rough. The schooner Kinghaber, which was driven ashore inside the Cleveland breakwater Tuesday night, is rapidly being pounded to pieces by the waves.

"We were badly whipped at the meeting," said Mr. Ramsey, "but the fight is not over. There is very little to say further than the newspapers have already reported on the contest at Toledo. I would have been elected a director if the proxies I held had not been thrown out. But there is another fight on."

DISSATISFACTION CAUSES RETIREMENT OF WRIGHT

Governor of Philippines Will Leave His Post by the First of December.

[By Associated Press to The Gazette.]

WASHINGTON, Oct. 12.—By reason of what appears to be dissatisfaction with the situation in the Philippines, Luke E. Wright, governor of the Philippines, and president of the Philippine commission, will retire from that position about the first of December. Gov. Wright is expected to arrive in the United States during that month and is entitled to six months' leave of absence prior to the formal relinquishment of his labor as governor general. It is understood that he expects to return to Memphis, Tenn., to resume his practice of law.

President Roosevelt and Secretary Taft, it is believed, practically have decided upon the successor to Gov. Wright, but no intimation has been permitted to become public as to his identity. It can be stated reasonably definitely that Gov. Wright's successor will not be a man now connected with the Philippine commission.

Gov. Wright and Mrs. Wright, it is said, have not been thoroughly satisfied with their environment in the Philippines, although the governor always has manifested a deep interest in his duties and in the development of the resources of the island.

MEMPHIS, TENN., Oct. 12.—Friends of Gov. Wright expressed the opinion today that he may enter the race for United States senator or governor.

Gov. Luke E. Wright.

Several Germans were made prisoners, but after being disarmed were allowed to return to Lieut. Gen. Von Trotha, commander of the German forces, with a letter from Morengo, saying that the Hottentots were now in a position to take the offensive and would fight to the finish.

CURES FIVE CANCER CASES.

Physician Gives Details of Successful Use of Radium in New York Hospital.

NEW YORK, Oct. 12.—(Special.)—That five persons have been cured of cancer at the Flower hospital by the use of radium coatings on celluloid rods inserted into the diseased parts, was the substance of a paper read tonight by Dr. William H. Deffenbach before the Homeopathic Medical society of the county of New York.

In only one of six cases which he treated, Dr. Deffenbach said, his effort met with defeat. In that case the disease was far advanced.

STARTS MORE GRAFT SUITS

Weaver's Counsel Alleges Another Conspiracy to Defraud City.

FIVE MEN ACCUSED

Among Them Durham's Brother-in-Law, and Ex-Director of Public Safety.

CONTRACT IS INVOLVED

The Pittsburgh Gazette Bureau, Penn Building, PHILADELPHIA, Oct. 12.

Judge Gordon this afternoon instituted another of his sensational political prosecutions. The exposure of his efforts to delay the trial of John W. Hill, ex-chief of the bureau of filtration, made this expedient necessary.

The charge of conspiracy to defraud the city in awarding the contract for the new municipal hospital, is the result of an information which Gordon has had made by Chief of Detectives Donnelly against Philip H. Johnson, architect, and brother-in-law of Israel W. Durham; ex-Director of Public Safety Abraham L. English, James D. Finley, inspector, also a cousin of Durham; and John W. Henderson and Henry E. Baton, contractors, doing business under the name of Henderson & Co.

Warrants for the arrest of the accused were issued this afternoon. Detectives brought Henderson, Baton and Finley to city hall, where they entered bail for a hearing tomorrow, in the sum of $5,000 each. Johnson and English were out of town. Bail was entered for the former, and English is expected home tonight. He will enter bail in the morning and be present at the hearing tomorrow.

Subpoenas have been issued for Senator James P. McNichol, ex-Mayor Samuel Ashbridge and 20 others. Mr. Gordon declines to furnish information beyond that contained in the affidavit, which follows:

The Charges Set Forth.

John J. Donaghy, being duly sworn according to law, deposes and says: That Philip H. Johnson, James D. Finley, John W. Henderson, Henry E. Baton and Abraham L. English, the said English then and continuously being an officer of the city of Philadelphia, a duly corporate body, to wit, the director of public safety of said city, the 20 day of April, 1905, until the 4th day of April, 1905, and others to the deponent now unknown, duke of said county, did, within jurisdiction of the county of Philadelphia, and within the space of four years last past, and both heretofore to cheat and defraud the said city of Philadelphia of its moneys and other properties in connection with a fraudulent and unlawfully proposed execution and carrying out of a contract then and there entered into between the said city of Philadelphia and Henderson & Co., United, for the erection of a certain public work, to wit, a municipal hospital within the said city of Philadelphia, to the great prejudice and damage of the said city, and the said Philip H. Johnson, James D. Finley, John W. Henderson and others, as deponent now believes, late of the said county, have within the said jurisdiction and within the space of two years last past, actively continued in the said conspiracy and have continued for said period of two years last past, and within the said jurisdiction, to conspire, cheat and defraud said city of its moneys and other properties in connection with the fraudulent and unlawful procurement, execution and carrying out of said contract, all of which is true according to the best belief and information of the said deponent, and further the deponent knoweth not.

Work Has Been Stopped.

The contract in question was for $2,470,000. It was awarded Henderson & Co. by Director English March 6, 1905, and approved by Mayor Ashbridge. Philip Johnson, an architect, received a commission of 5 per cent. Some time ago Mayor Weaver had Henderson & Co. stop work on the hospital, and he also withheld the money due them. The mayor instructed City Architect Powell to investigate the work, but has not made public his report.

Gordon's real purpose in the prosecutions began today, aside from their immediate political effect, is, it is said, to try and establish his claim that Senator James P. McNichol is interested, if not a controlling factor, in the firm of Henderson & Co. For months the Weaver newspapers have made this charge, and the reformers say they expect tomorrow to establish its truth. When Mr. McNichol was asked about the matter today he said:

The Gordon warrants issued today are intended to worry political adversaries. The magazine was empty. Gordon has been making desperate efforts to move on the Hill trail. He knows a trial will frustrate Hill, and he patently gives the motion to get District Attorney Bell to agree to a postponement has injured the Gordon-Weaver-Ashbridge political game. As an evidence to the contrary in the public mind Gordon was obliged to resort to the old trick of political prosecutions. This is the favorite ante-election play.

So far as Henderson & Co. are concerned, I never had a dollar's interest in the firm. This the firm's books will show. My relations with Henderson & Co. have been confined to contracts on which they were the lowest bidders.

Will Be Reactionary.

Senator Penrose, Israel W. Durham and the other Republican leaders declined to be quoted beyond saying the charges were made for political effect, and that their tendency would be reactionary rather than helpful.

As soon as the warrants were served on Henderson, Baton and Finley, Judge Gordon gave out copies of a letter he had written to Assistant District Attorneys Barr and Roberts, in which he outlined his action and invited them to be present at the hearing tomorrow. The latter Gordon uses as a means to wash his hands of the Hill case, also the case instituted today, after the preliminary hearing tomorrow. Divested of its sophistry Gordon clearly says:

"I will make the charges and it's your duty to prove them."

Assistants Barr and Roberts, in their reply, decline Gordon's invitation to be present at his political hearing, stating the matter on the statement they will attend to the cases when they come up regularly within their official jurisdiction. In

HUSBANDS REVOLT AGAINST SOCIAL LIFE OF THEIR WIVES

Two Hundred Men, Grown Tired of Delayed Dinners, Call a Halt on Pink Teas in an Indiana Town—Promises to Do Better.

[Special Telegram to The Gazette.]

INDIANAPOLIS, IND., Oct. 12.—Two hundred husbands of Williamsport, Warren county, are in revolt against social functions which their wives have cultivated till household duties have been neglected and life for the man has become a burden.

Long-delayed dinners, constant drains on the purse, late hours at night and languid movements in the day time are some of the results of giving themselves up wholly to social functions, and it is against these that the husbands now protest.

Explanations at home, it appears, have gone for naught and yesterday afternoon, while their wives were at euchre parties, pink teas, receptions and the like, the men conclused to act. They called a meeting and at 7:30 o'clock had a pink tea themselves.

Then they marched to the various places where their wives were being entertained and burlesqued their social functions.

Some of them did not take kindly to the intrusion, but others admitted that their better halves had just cause of complaint and promised better things for the future.

SEWICKLEY HEIGHTS SHOW CONCLUDES WITH A BUSY DAY

Judging Begins in Morning and Was Almost Dark When Last Class Reaches Ring.

JAMES H. CHILDS LEADS ALL

Sewickley Heights Horse Show Association's three days open air exhibition on the grounds of the Allegheny Country club concluded yesterday and it was horse show all the day through. The six left over classes caused by the rain on Wednesday were judged in the morning, the first class being called into the ring at 8:30 o'clock and it was after 1 o'clock before this part of the judging was finished.

Without a break or cessation the classes originally carded for the day were taken right up and kept the judges on the jump till almost dark. In spite of the bleak day, and the chill was penetrating, numbing, quite a gathering ventured out and the crowd was augmented in the afternoon. The music was back and its strains of such things as "The Good Old Summer Time" brought a doubtful cheer. The consomme and sandwiches served in the refreshment pavilion got an awful play. The show ring was still very heavy in the morning, but improved when the sun came out.

James H. Childs easily carried off the honors of the day, capturing three championships and three blues. He led the winners for the entire show by a big margin and the way he swept the boards at the show has been its feature.

Childs Biggest Winner.

All his horses are standard bred and of great speed, quality, conformation and action. During the show he walked away with three championships, six blues and a yellow. He developed the horses himself and they went into the ring fit to go for a king's ransom. Wild Rose was invincible in the small harness championship class. Rollicking Girl was unbeatable in the similar large class, and Rollicking Girl and Captain Jinks could not be headed off in the championship pairs class.

Rollicking Girl started right off in the morning by taking down the blue in the horse in harness class over 15.2 hands. She disposed of B. F. Jones, Jr.'s Bit and W. W. Willock's Lady Algy, both winners at Plainfield. Mr. Childs annexed another blue the first thing in the afternoon with Don and Actress in the pair to station wagon class, 14.2 to 15.3. Lady Jane, superbly handled by Miss Madelaine Laughlin, was in the combination harness and saddle class, having behind her Grand View farm's Front Royal and Babs. In this class A. R. Hamilton's Peleth was all quality, but for some reason did not show well. A killing was expected to be made with him, but he just landed a white ribbon.

Hunt Teams Spectacular.

The spectacular class of the morning was the one for hunt teams of three. The riders were all in pink. The Harkaway hunt was represented by two teams and the Pittsburgh Country club with one. Frank M. Lowry, M. F. H., on Gladstone, Miss Blanche Harper on Harkaway and Percy E. Donner on Silver Tail made up the favorite team. The judges placed the second team first. It was ridden, Lucania by H. L. Collins, Empress by D. H. Collins and Countess by Palmer Collins, three brothers. The Country club's team, which got the yellow rosette, was ridden by: Searchlight, D. C. Byers; Rapidan, H. N. VanVorhis and Boer Hunter, B. M. Byers.

B. F. Jones, Jr., won in the spectacular road four class in the morning, William Thaw driving H. E. Rea's four into the red. The large tandem class of the afternoon, wheelers over 15.1, was the warmest competition of the day. There were 12 tandems in the ring. H. L. Herbert said: "I have never seen at a horse show such a big class or one in which there was so much quality."

The judges remained long in doubt between Mrs. B. F. Jones' Bob and Dewey and B. F. Jones' Jr.'s Bit and Spur. They gave the blue to the former, saying for the roads and hills they were better suited, but for park use Bit and Spur were preferred. Bob and Dewey were brought here by Louis Schulenberg.

Nice Win for E. M. Byers.

E. M. Byers took a popular victory with Rapidan in the hunter's class up to 165 pounds. He was ridden by his brother, D. C. Byers. To win he had to beat Empress, Gladstone and Harkaway, which finished in the order named, and a lot of other good ones.

The show concluded with the judging in the five championship classes. In the small pairs, W. W. Willock's Drexel and Oakwood stood out so clear over R. P. McCrann's Francois and Jeannette, the only other pair exhibited, that the issue was not in doubt from the moment that two pairs entered the ring. Manager Donnon made the only protest of the show, claiming that Mr. Willock's pair was over 15.1, the limit mentioned in the catalogue. This, however, had been corrected early in the day and the limit was stated at 15.2, the standard one.

J. H. Childs was closely pressed with Rollicking Girl and Captain Jinks by B. F. Jones, Jr.'s Bit and Spur in the large pairs championship. The latter had better balanced action and bone, but the former had higher quality and were of a higher type. In the championship hunter class D. C. Byers won from a strong field. Miss Belle Beach tried hard with Mrs. H. L. Collins' Countess, which got reserve winners. J. H. Childs had a battle royal with W. W. Willock's Long Branch and Sewickley winner Fritz, in the small single championship class, the former winning out. These same owners clashed in the large single champion class, Mr. Childs again winning out with Rollicking Girl over Lady Algy.

ALLEGHENY POOR FARM BARN GUTTED BY FIRE

Inmates Turn Out and Assist in Saving Contents—Valuable Stock Saved by Prompt Action.

The large barn of the Allegheny city poor farm was entirely destroyed by a fire of unknown origin, which started at 12:20 o'clock this morning. The fire was discovered by the watchman and all the employes of the institution were aroused and turned out to protect the property and nearby buildings.

The building was 100 by 150 feet, and two stories high. The lower story was of stone and the upper of wood. The building was filled with hay, straw and grain and the stable underneath contained over 20 head of cattle and horses which were gotten out immediately after the flames were discovered.

Great excitement prevailed among the inmates of the poor farm but all those who were able assisted in protecting outbuildings and in caring for the stock. The building and contents are a total loss. The building was covered by insurance but the stock was not. The total loss will not exceed $10,000.

Brilliant Social Gatherings at Various Homes on the Hill End the Show.

CLUB DANCE THE FEATURE

The Allegheny Country club dance was the social feature of the last day of the Sewickley Heights horse show. The dance was very informal, but the gowning was extremely beautiful, many of the guests having remained at the club house for dinner. As there were so many diners the dining-room was not cleared until late and this brought the farewells at a very early hour in the morning. Mrs. J. V. Thompson's table occupied the center of the dining-room, whose walls were gaily hung with smilax and bunting in the horse show colors, red, white and blue, while here and there a horseshoe of the same colors adorned the walls. Covers were laid for 30 at the large round table, and in its center stood an immense basket of luscious grapes in huge bunches. Asparagus springerii was trailed over the high handle, above which and from the center of the basket, rose a tall glass vase of immense white chrysanthemums of the ragged variety. The favors were corsage bouquets and boutonniers of Kaiserin roses, tied with black and white ribbons, the colors used at Mrs. Thompson's farm in Uniontown.

In one corner of the dining-room was Miss Marguerite Singer's dumbbell-shaped table, at which she entertained in honor of her brother-in-law and sister, Mr. and Mrs. William Ross Proctor of New York city, who are guests of Mrs. Proctor's parents, Mr. and Mrs. William Henry Singer, over the horse show. In the center of the table there was a long low mound of pink Twentieth Century dahlias and a round centerpiece of the same on either of the round ends of the board.

Among the Guests and Hosts.

Mr. and Mrs. William P. Snyder entertained a small party of friends, and at their table red dahlias were used. Oliver P. Nicola's table had a centerpiece of enchantress carnations, those of the delicate pink shading. A party of six was entertained by James Todt, the centerpiece on the table being Madame Chatenay roses, while nearby F. M. Lowry's table, where sat a party of six, was decorated with American Beauty roses.

A low centerpiece of red gladiolias was used on the table surrounded by M. A. Christy and his friends, and on that engaged by Mrs. J. J. Brooks were pink dahlias. Liberty roses formed the centerpieces on H. D. Dravo's table, next to which was George Hamilton Flinn's with a centerpiece of white chrysanthemums, with yellow chrysanthemums on Charles McKnight's.

Other social events of the day included Mrs. Elizabeth M. Horne's buffet luncheon for her sister, Mrs. William Walter Willock's Lakewood visitor. Mrs. H. L. Herbert. The guests, about 50 in number, were served at one large table, which had as a centerpiece a high-handled basket filled with yellow chrysanthemums, and tied with Alice blue ribbon, while the handle was twined with yellow orchids.

The closing day of the horse show was from many view points more successful than either of its predecessors. Although the audience was smaller than on the first day, it was a more elaborately dressed one and the colors in the gowns and hats ranged from deep tones of purple and red to the most delicate of lavenders, blues and pinks. Veils were much in evidence, as the wind was high, and these dimsy chiffon and net affairs dotted the boxes and grandstands with bits of color. Handsome furs were seen in nearly all the boxes, and despite these, constant visits were made to a large bonfire near the grandstand and short promenades were indulged in between classes.

Some Smart Riding Habits.

Fewer of the women rode yesterday, but those who did were dressed in smart habits. Miss Mary Flinn and Miss Edith Flinn were both attired in the black habits and sailor hats with striped bands, which they had worn on the previous day. Both Miss Blanche Harper and Miss Belle Beach wore black habits with high silk hats.

Some of the occupants of the boxes were Mrs. William Henry Singer, in a handsome mink cape over a black suit with a small black hat; Mrs. George Harton Singer, in a tight-fitting tan coat and with a small brown hat and white veil; Miss Marguerite Singer, in a loose tan coat with a pink and white hat; Mrs. Alexander Laughlin, Jr., in black; Miss Madeline Laughlin, in a gray Norfolk jacket over her riding habit, with a small sailor hat; Miss Jane Bennett, in a white striped coat suit and smart black hat; Mrs. William Walter Willock, in a white coat suit with ermine boa and black and white hat with white plumes. Her sister, Mrs. Elizabeth M. Horne, wore a stylish little blue hat and white chiffon veil, with a suit of dark gray. Mrs. Thomas McK. Cook had a handsome black coat with Persian lamb collar. The underbrim of her hat was of black and the crown of pale blue, while for trimmings there was a tight wreath of tiny pink roses on the top and blue wings at the side.

Costumes Were Striking.

Mrs. James Harold Childs, her sister, appeared in a dark gray suit and a pale blue hat, while another sister, Mrs. James Wood Scully, wore a dark suit, dark furs and a lavendar hat trimmed with the same color. Miss Marian Chambers was a striking figure in a long, loose coat of red with Persian lamb collar and cuffs. Her hat was a small round affair trimmed with wings at the side.

Mrs. J. Dawson Callery wore a handsome suit of purple cloth and a small black hat, and Mrs. William P. Snyder, in another box, was gowned in a velvet suit of rich dark brown. Her hat and veil were a dark red. A half fitting tan coat and trim little black hat were worn by Miss Susan Shields Williams, and Mrs. Henry Lafayette Collins covered her black and white check front with a long loose coat of black with a fur collar. Miss Carelie Slack wore a loose coat suit of black and white check finished and trimmed in red. Mrs. Henry Robinson Rea was entirely in black, her suit consisting of a tight-fitting coat and short skirt. Mrs. W. N. Kerr covered a white dress with a handsome black coat. She wore a hat of black moire silk, the crown of which was outlined by pink roses. Mrs. Leonard Hanna's suit, which was particularly handsome, was of white broadcloth and her hat, a black and white affair, was trimmed with sweeping white plumes. About her neck was an ostrich feather boa.

his letter to Farr and Roberts, Gordon says in part:

Under the decision of the district attorney in the cases of John W. Hill and Frank H. Caven, I will not be allowed to take any active part in the trials. The district attorney also informed me that this would apply to any other prosecution instituted. As, after the hearing, you will have exclusive charge of the cases, and my duties as an attorney will be terminated by Mr. Bell's decision, I am desirous you should acquaint yourself fully with the facts at the preliminary hearing.

Request Is Declined.

Replying to Mr. Gordon, Messrs. Farr and Roberts say, in part:

You refer in your letter to the fact that Mr. Bell has communicated to you his declination to assist in the preliminary hearings. We should regard this attitude of his alone as binding upon us, but in addition thereto he informed us he wished us to carry out the policy he had so outlined to you in that and other letters, which have previously passed between you. In view of this we must decline to accede to your request. Still following Mr. Bell's suggestion, I may add that when the cases are, by due course of legal procedure, returned to this office and probably fall within our jurisdiction, we shall at once draw up the indictments and prepare the cases for trial, in which work we ask your valued assistance and advice.

Attorneys A. S. L. Shields and Edward Magill will represent the defense at tomorrow's hearing. Henderson & Co. are one of the largest contracting firms in Philadelphia. Their contract for the municipal hospital is one of the smallest they have in hand, involving but $16,700.

TWO CUNLIFFE DETECTIVES ARE ARRESTED BY THE POLICE

So strenuous has become the pursuit of Cunliffe that other detectives are being required in some quarters to protect the unsuspecting public from the sleuths who are in search of the bank-note thief. Yesterday two young men, who emulate Sherlock Holmes, followed the wrong trails or made false deductions. Both were arrested and locked up.

Walter Collins of Pittsburgh was rounded up by the McKeesport police. The charge of disorderly conduct was made against him, and in defense of his actions he said he was a well-known detective, was working on the all-important case of the day and had inopportunely taken too many drinks on an empty stomach. The policeman said Collins had insulted a hotelkeeper's wife and had acted disorderly.

George Kelly of 10 Mason street was making deductions at Butler and Fifty-first streets at 4 o'clock yesterday morning. He was well dressed and looked like an exceptionally bright young man, but his disguise did not go well with Policeman Edward Welsh, who arrested Kelly on the charge of being a suspicious person.

CUNLIFFE MAY BE A PAT CROWE

Express Clerk's Friends Think He Will Agree to Return for Ransom.

DETECTIVES HAVE CLUES

Will Edward George Cunliffe, the Adams Express Company clerk who made away with $101,000 last Monday night, play the Pat Crowe act? Will he surrender provided he is allowed to retain a big ransom for himself?

These questions are worrying the officers of the express company and at the same time are causing the Pinkerton detectives to modify their methods of pursuit. It is the universal opinion that eventually Cunliffe will be caught and it is regarded as probable that he will attempt to negotiate for his surrender before his fortune is squandered. He is considered to be bright enough to effect a deal for his own ransom and completely outwit the sleuths who are scheming for his capture.

This theory is not admitted by either the detectives or the officials of the express company. The Pinkertons are saying nothing and all that the Adams people give out is indicative of doubt and perplexity. Nevertheless, among the express company employes and those who have been associated with Cunliffe since his coming to Pittsburgh, the opinion is freely expressed that he will not remain long in seclusion. If he cannot make a deal with the company, it is declared that he will seclude his treasure and come back home, preferring to accept the penalty of imprisonment rather than accept a life of isolation.

Pinkertons Say They Have Clues.

"We are on Cunliffe's trail. The clues look good."

This was the information given out last night at the Pittsburgh branch of the Pinkerton National Detective agency. The statement was made with a tone of more confidence than was noticed on the previous night.

"How soon do you expect to capture Cunliffe?"

"Can't say. We will not get him tonight, but at the same time the course that is being followed in pursuit seems to warrant his early arrest."

At the office of the express company the same clam-like silence which characterized the officers on Wednesday was still maintained. Another clerk was at work at Cunliffe's desk, and the only matter that seemed to disturb the express people was that so many persons in the street express sympathy for Cunliffe's impoverished condition before he was tempted to run away with the roll of $100,000. Surprise has been freely expressed that his salary was so low. The tendency in many quarters is to the glorification of the runaway's deed. He is looked upon as a modern Robin Hood, who has added to his skill at theft by adroitly dodging the best detectives in the country.

"Suitable Reward" Is Offered.

A reward has been posted for the capture of Cunliffe. Notice of this is published on the tens of thousands of posters which are being sent out through the Pinkerton agency. The sum offered for the fugitive is named as being "suitable." The posters also bear an 11-year-old photograph of the man and explicit details concerning his personal appearance and the manner of his escape.

The history of the pursuit of Cunliffe up to date is not without interest. There are hundreds of detectives, amateurs and professional, at work on the case, and since they come from all parts of the country and have a multitude of deductions ready from the laboratories of their fertile brains, it is only charitable to assert that some of them have found something tangible. Just how much depends upon the ultimate overtaking of the fugitive is entirely another matter.

Certain it is that Cunliffe has not been sitting around in the tall grass at Unsworth cutting his own hair with the aid of a brush and pocket mirror. Neither has he been advertising the "dry, hacking cough" of the cigaret fiend. Cunliffe had a good 30-cent Union barber haircut last Saturday night, and the "cough" is said to exist only in the minds of those who imagine that every man who smokes cigarets catches the slight throat affection which bothers a few callow youths who learn the habit when they are young.

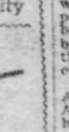
No Credence in Wild Reports.

The Pinkertons are not following any clues of this sort. They are not worried because a stranger in a Meadville barroom got excited on hearing the story of the robbery read from a Pittsburgh newspaper. The Pinkertons know enough about the brand of liquor sold in many hostelries of that town to acknowledge other reasons for the stranger's excitement. The man who turned up in Montreal yesterday is not believed to be the Pittsburgh express clerk for reasons that are equally rational.

These stories of clues, however, which are sent to Pittsburgh on every tick of the wire and on every buzz of the telephone, indicate in a striking measure how fast and how far has gone the hue and cry for the fleeing Cunliffe. Every city in the union that has a telegraph office has been notified, and the smaller towns which have been reached by the mails leaving Pittsburgh since Wednesday afternoon have received their official notification of his escape.

Yesterday the White Star steamer Cymric cleared the port of Boston and steamed down the bay for Liverpool. A signal was sent out from the deck calling the captain of the ship to slow down. A tug put out and Pinkerton detectives climbed on board. They examined the vessel thoroughly and then allowed her to continue on her course, being convinced that Cunliffe was not on board. On every pier in New York, Philadelphia, Baltimore, Savannah, New Orleans, Galveston, and every other important American seaboard city, are officers bearing the same badges of authority, and all have the same instructions as those who caused the captain of the Cymric to signal his engines to shut off the steam and churn the foam the other way.

Cunliffe's Signatures Show Individuality



Here are two signatures of Cunliffe. The one bearing the abbreviation of the first name is that which he usually dashed off on the receipts which he gave at the express office. The other was rarely written by him, but is considered valuable by the detectives inasmuch as it shows his more deliberative style of penmanship. His handwriting ordinarily is quite legible, and many of the letters have strong individual characteristics, as will be noticed in the initial "E."

Crisp Bank Notes of Series "E 685" Cunliffe May Have

President T. Hart Given of the Farmers Deposit National bank says he does not know exactly of what series the new $100 bills in the $100,000 bundle Cunliffe disappeared with are. However, as nearly every one fortunate enough to hold one of the Farmers finest, newest and crispiest centuries finds on looking at it that it bears the series letter and number "E 685," the assumption is that Cunliffe has quite a roll of the "E 685's." There were 800 100 bills in the express package he got away with, issues of the Farmers Deposit and the Bank of Pittsburgh, N. A., and nearly all of them were new and unused. Many people who have come into the possession of sh "E 685" of the Farmers bank have made themselves conspicuous in displaying their crisp cash.

BISHOP CANEVIN GOES TO VISIT THE POPE

Twenty Priests See Him Off at Union Station—He Carries $8,000 Peter's Pence.

Bishop Canevin left last night for New York, whence he will sail Saturday to visit the pope. It will be the bishop's first visit to Rome since he became a bishop, and this call on the head of the Catholic church is his "ad limina" visit, one which every bishop must make every 10 years. The late Bishop Phelan made his last visit to Rome in 1896.

In accordance with Bishop Canevin's desires there was no demonstration by the laity at his departure. Twenty priests were at the Union station to see him off. They accompanied him through the gates to the train, where they all wished him a safe journey, kissing the episcopal ring which he wore on his finger.

The bishop will sail on the steamship Kronprin Louis at 9 a. m. tomorrow, landing at Naples. He will be absent five weeks. While in Rome he will have one or more audiences with the pope, to whom he will present the $8,000 in Peter's pence given by the Catholics of the Pittsburgh diocese and he will have much business with the propaganda congregation, which administers the affairs of the church in the United States for the pope.

In New York he will confer today with Archbishop Farrelly, who was one of the American prelates who vainly sought to have Pope Pius X. modify his decree concerning church music. It is well known in Rome that Bishop Canevin is in full sympathy with the pope's ideas, and therefore many bishops in America think he is the proper man to lay before the head of the church the difficulties encountered in many American dioceses in carrying out the decree, because of the lack of trained male voices in so many Catholic congregations.

JUDGE PAXSON'S LIFE IS CLOSED

Former Chief Justice of State Supreme Court Dies at His Home.

SKETCH OF BRILLIANT CAREER

[By Associated Press to The Gazette.]

PHILADELPHIA, October 12.—Edward M. Paxson, former chief justice of the supreme court of Pennsylvania, died today at his home in Byon, Bucks county. Death was due to a complication of diseases. He was 81 years old, having been born September 2, 1824. He resigned as chief justice in 1899, after serving four years in that capacity.

Judge Paxson was born in Buckingham, Bucks county, Pa. His parental ancestors came from Byron house, Bucks county, England, in 1682, and settled in Pennsylvania. He was educated at the Quaker schools and at the age of 18 years, in connection with Samuel D. Ingham and Dr. Phineas Jenks, he established the Newton Journal at Newton, Pa., and later founded the Daily News in Philadelphia. He studied law and was admitted to the bar of Bucks county in 1850. He subsequently removed to Philadelphia, where he attained the reputation of being a brilliant lawyer.

Judge Paxson was appointed judge in the common pleas court in 1869 to fill the vacancy caused by the resignation of F. Carroll Brewster. He was elected to the office the following year. In 1874 at the first election under the new constitution, Judge Paxson was elected to the supreme court for 21 years and on January 7, 1889, he became chief justice by seniority of commission, succeeding Chief Justice Gordon.

In 1895 Judge Paxson was appointed one of the receivers of the Philadelphia & Reading Railroad Company, at which time he resigned his position as chief justice. He has edited "The Marriage Laws of the Several States and the District of Columbia" (Philadelphia, 1887) and "Memories of the Johnson Family," printed privately (1888), contributed anonymously to newspapers and magazines, and delivered numerous agricultural, historical and other addresses. The House for Aged and Infirm Members of the Society of Friends at Newton, Pa., was founded by Judge Paxson.

The supreme court adjourned yesterday until 10 o'clock next Wednesday morning, when the list will be taken up where it was dropped yesterday and continued until it is finished. This action was taken on account of the death of the Hon. Edward M. Paxson, former chief justice of the court.

The death was formally announced by Chief Justice Mitchell, who pronounced a brief eulogy on the dead jurist. No further business was taken up. This week's list had been practically ended and after a consultation the adjournment until Wednesday was agreed on. The justices will attend the funeral, which takes place on Monday.

FOREMOST LIBERAL OF RUSSIA IS DEAD

Prince Troubetskoy, Leader in the Zemstvo Congress, Passes Away.

[By Associated Press to The Gazette.]

ST. PETERSBURG, Oct. 12.—Prince Sergius Troubetskoy was stricken with apoplexy tonight while conferring with M. Glasoff, minister of education. He died in two hours. He was regarded as the foremost Liberal in Russia.

For a long time Prince Troubetskoy was president of the zemstvo congress of Moscow and headed the delegation that last June presented the petition of the All-Russian congress to the czar. He was a marshal of the nobility.

Prince Troubetskoy, who was 48 years old, sprang into world-wide prominence at the first zemstvo congress, previous to the meeting of which he had been known as a keen philosopher, who, in the chair of the history of philosophy in the University of Moscow, had made good the promise of his student days. It is thought that the worries of the last few weeks, due to renewed agitation in the universities, had much to do with the death of the prince. The purpose of his trip to St. Petersburg was for autonomous government and other reforms in the status of the universities.

WORK OF BLACK HAND.

They Murder Man Who Had Refused to Pay Them Blackmail and Threaten to Kill Futhers.

NEW YORK, Oct. 12.—The detective force of New York is working today to run down the murderers of Gaetano Costa, a wealthy Italian, who was shot to death in his butcher shop at No. 86 Fourth avenue, Brooklyn, by members, it is believed, of the "Black Hand" society.

The crime was one of the most daring ever committed by the gang. At least six members took part in the murder of Costa, who had refused to pay $1,000 blackmail after being threatened by letters. After firing four bullets into Costa, any one of which would have proved fatal, the four armed assassins dashed from his place, and when followed by citizens turned and threatened them with death. They made their way to the water front and there jumped into a boat held in waiting by two others and made their escape in the darkness.

BELL COMPANY WARS ON ENEMY

Under Sub-Licensing Plan It Acquires Contract Rival Telephone Company Owned.

AFTER THE NEW COMBINATION

The Bell Telephone Company has not waited for the recently formed combination of independent telephone companies to begin the war. The old company has already started to do battle, and yesterday carried the war into the enemy's own country. By making a contract with the South Penn Telegraph and Telephone Company, a rural concern, it has dealt the first blow to its local rival, the Pittsburgh & Allegheny Telephone Company, and at the same time disclosed the policy to be followed in trying to cripple the new combination before it is even fairly started.

J. G. Splane, the president of the Pittsburgh & Allegheny Telephone Company, was seen yesterday within 30 minutes after the Bell people and the representatives of the South Penn Telephone Company had signed up their contract. He was told that the news was public, but he sent word from his private office that he knew nothing about it and had nothing to say.

The Pittsburgh & Allegheny company represents in Pittsburgh the new independent combination. It has contracts with a number of rural lines in Western Pennsylvania, and these contracts the Bell people are trying to acquire. In the warfare of the Bell company is included a plan of sub-licensing its trunk lines to the rural companies on favorable terms, thus giving the country people long-distance connection over a wide stretch of territory.

The center of the South Penn company's operations is in Waynesburg, Greene county, and vicinity, but the officers say they will soon make extensive additions to their plant. They had a contract with the Pittsburgh & Allegheny company, but have not now.

The sub-licensing plan, the one under which the South Penn company came into the Bell telephone fold, is in charge of M. C. Rorty, the young superintendent of the traffic department of the C. D. & P. T. Company. Mr. Rorty was in very good humor yesterday when he gave out the following statement for his company:

> The C. D. & P. Telephone Company has today made a long-term agreement with the South Penn Telephone and Telegraph Company that will give subscribers to the latter company in Waynesburg and vicinity connections with the entire Bell telephone system. This is in line with the recent Bell policy of entering into partnership with local telephone companies, but is the first actual agreement of the kind with an established company that has been effected in this vicinity.
>
> Officials of the South Penn company claim that the new agreement will be followed up by extensive additions to their plant, which is already one of the best in this section.
>
> The deal as a whole is the immediate outcome of a disagreement between the South Penn company and neighboring independent telephone companies, and interrupts communication between a number of these companies.
>
> Officials of the C. D. & P. Telephone Company state that several other similar deals will shortly be concluded.

ARREST OF ALLEGED ELOPERS.

Woman and Supposed Lover, With Husband's Money and Baby, Are Captured at Joliet.

Detective John Lally left yesterday for Joliet, Ill., to bring back Silo Kosonovich and Mrs. Mary Vujnovich, who are said to have eloped last Friday from the home of the woman's husband, 2844 Carson street. There was $53 in cash in the house which is said to have belonged to Vujnovich and half a dozen boarders, all of which is missing. The woman had about $90 deposited in her own name in two South Side banks which, it is said, she drew before leaving home. She also took her little baby, about 10 months old.

The husband reported the loss of his money, wife, baby and a boarder to the police, and made an information before Magistrate Kirby against Kosonovich for larceny. A friend also made information against his wife.

Detectives Lally and McGough learned the man had said he could get work in a mill at Joliet, and wrote the police there to look out for the couple. Their arrest was an easy matter.

GOMPERS WILL SPEAK BEFORE THE CHAMBER

Secretary Logan S. McKee of the chamber of commerce yesterday received a letter from Samuel Gompers, president of the American Federation of Labor, accepting the invitation to deliver an address before the chamber sometime during the national convention of the federation, to be held here next month. November 15, at 3 p. m., will probably be set as the date on which the address will be delivered.

These popular farceurs will be seen at the Alvin next week in B. E. Forrester's production of "Bankers and Brokers," said to be one of the funniest comedies on the road this season.

MUCH INTEREST IN GUARD SHOOT

Gen. John A. Wiley Will Take Rifle in Hand at Highland Range.

MANY OFFICERS TO ATTEND

The most important rifle shoot ever held by the National Guard in Pittsburgh will take place at the Highland range today. It is open to line and staff officers and the non-commissioned staff officers, and will enlist the marksmanship efforts of all the more prominent members of the guard in Western Pennsylvania. Gen. John A. Wiley, commanding the Second brigade, will participate in the shoot, it being the first time in many years that a general officer has taken part in a state rifle match.

Gen. Wiley arrived from Franklin last night and will be a conspicuous figure on the range. Interest in rifle shooting has leaped to the front in the matter of attention from officers in the guard and the commander of the Second brigade is lending all his efforts toward securing it a foremost position in the work of the officers throughout the Second.

"Nothing is more important among the qualifications of the good modern soldier than thorough skill in rifle practice," said Gen. Wiley last night at the Seventh Avenue hotel. "The war in South Africa and the bloody contest between Russia and Japan has given evidence of this. While the artillery is recognized as one of the most important arms of the service, the rifle has regained all its old-time prestige. Above all this there are many other reasons why proficiency with the rifle indicates a good soldier. Col. Frank K. Patterson, the inspector general of rifle practice on the general staff of Pennsylvania, is working to place the marksmanship of the state soldiers on a high plane and he deserves credit for his efforts."

Gen. Wiley is only a marksman. He has not qualified as an expert. However, some 40 years ago he handled the old Springfield at Antietam and Gettysburg—and he wasn't shooting at bull's eyes either. The fact that he has made the journey from Franklin to attend today's shoot has stirred up much interest among the other officers of the guard in this part of the state.

The shoot will begin at 10 o'clock in the morning and will continue until each man has made his target. The officers will appear in their olive drab service uniforms and will shoot independently. The team trophies and individual medals have been described before in the columns of The Gazette. The members of the various teams as reported to Col. Patterson will be constituted as follows:

General staff—Col. Albert J. Logan, Col. Frank K. Patterson, Lieut. Col. L. T. Brown, Lieut. Col. Thomas J. Keenan, retired, and Sergt. T. M. Patterson.

Second brigade staff—Brigadier General John A. Wiley, Maj. John R. Robertson, Maj. Samuel W. Jeffries, Maj. Lew A. Anshutz and Sergt. J. W. Fulton.

Fourteenth regiment—Col. William E. Thompson, Lieut. Col. J. Harry Corbett, Maj. Franklin Bledstone, Maj. William S. McKee and Capt. Murray A. Livingston.

Eighteenth regiment—Lieut. Col. James E. McNary, Maj. E. L. Kearns, Maj. James H. Bigger, Capt. Clyde Miller and Lieut. A. L. Cratty.

Tenth regiment—Col. James E. Barnett, Capt. Richard Coulter, Capt. Henry W. Temple, chaplain; Sergt. Anderson and Sergt. Eicher.

Inspectors' match—Capt. Edward B. Riddle, Capt. Blaine Aiken and Capt. George B. Shields.

Unqualified indorsement of the idea of ship subsidies was given by the bankers' convention at Washington yesterday. Something should be done to promote the American merchant marine and while there is some popular prejudice against the term subsidy, there is no other apparent means for reaching the desired end.

Much interest is taken in the national guard rifle shoot on the Highland range today, which is heightened by the participation of Gen. Wylie, commander of the Second brigade. This interest is encouraging. Good marksmanship is a prime requisite of an effective army. Americans have excelled in this art of war and should continue to do so.

Coke is reported selling freely for next year's delivery at $2.50 to $2.60 the ton. This is appreciably better than current quotations. Coke underlies the great iron and steel industry and the strength of prices for future delivery is indicative of conditions and promise in that line of trade. When iron and steel are prosperous the country is prosperous. It is enough said.

The practical working of the new Anglo-Japanese agreement is already seen in the material reduction of the garrison in Burmah, since Japan will now be relied upon to assist in the protection of India's eastern frontiers should necessity arise. As time goes on, many other advantages to Great Britain, resulting from her alliance with Japan, will be apparent. And the advantages will not be all on one side.

There is no definite statement of the "dissatisfaction" leading to the announced resignation of Luke E. Wright as governor of the Philippines. It may be surmised the action has close connection with the recent visit of Secretary of War William H. Taft to the islands. Judge Taft was governor at Manila in the most difficult days and naturally has a very clear idea about what should be expected from the man in that position.

Mortuary statistics of football, as compiled by a New York newspaper, make gloomy reading. Forty-five deaths are said to have occurred in five years as the direct result of the mass play. The nature of the fatal injuries sustained is detailed with unpleasant accuracy. There is nothing in the statement that will surprise followers of the game, but it emphasizes the necessity for the radical reforms soon to be put into effect.

The arrest of three Mexican editors at St. Louis on a technical charge is said to be due to the discovery of a revolutionary plot which included the murder of President Diaz. Mexico is one southern republic which decidedly has no use for revolutions. Sudden and sensational changes in government in the case of some of the Central American opera bouffe republics do not matter much. The restless Spanish-American spirit demands something of the kind once in so often. Mexico, under President Diaz, has developed wonderfully during the past two decades. The wise administration of Diaz has brought peace and prosperity. Mexico cannot afford a change of government, or of administration.

In the bitter campaign being waged in Maryland the Democrats, driven to desperation, have resorted to that reckless falsification for which the party is notorious. The bugaboo of negro domination, which has been raised, fades before the United States census figures which show there has been a steady proportionate decrease in the negro population during the past 90 years. On the other hand Secretary Bonaparte has shown that fair interpretation of the Poe amendment will disfranchise two white voters for every negro voter in the state. To the Democratic rejoinder that no white man will be disfranchised the sufficient reply is that no good citizen can vote for a measure that is not to be impartially applied.

The latest victory of Germany's native opponents in Southwest Africa and their reported declaration that "the Hottentots are now in a position to take the offensive and fight to the bitter end" evidence the difficulty of the job which Germany has on hand. The Jerusalem camp, which has been captured by the natives, is near Warmbad, a strong German base, and an important strategic point. The Hottentots continue to show not only energy and enterprise in the fighting line, but a faculty for organization not often met with in a semi-civilized people.

The Lying Leader.

The Leader of yesterday printed an editorial apparently trying to create an impression that the editor of The Gazette has cherished a disappointment because Dr. Cadwallader Evans was not nominated for mayor in 1903. The political editor of the Leader, at least, knows—the other editor of the Leader appears to know nothing—the editor of The Gazette was opposed to the suggestion of Dr. Evans as a candidate at that time on account of family ties between them. He did not urge his objection because other gentlemen, recognizing the high character, scholarly attainments and fitness of Dr. Evans were bent on putting him forward. At this day, however, The Gazette has no hesitation in saying if Dr. Evans had been selected he would have given this city a clean administration in strong contrast to the rotten misadministration that has disgraced the city and for which the Leader is kept busy apologizing.

For the remainder the Leader editorial is a tissue of lies. The Gazette has never attacked Controller Larkin personally, or impugned his personal honesty or integrity. On the contrary it has repeatedly, and always, testified to his personal honesty and during his first term urged the Republican party to indorse him for a second term. Mr. Larkin cast his lot with the men whose wrong-doing he had so vigorously denounced, the Republicans nominated another man and The Gazette supported the Republican candidate.

It has been the duty, but never the pleasure, of The Gazette to oppose the inconsistencies of Controller Larkin. His political acrobatics have been of the most striking variety. Exposing these may be regarded as malevolent assaults by the characterless Leader and its editor, but will not be by the public. The Gazette of yesterday quoted from Controller Larkin his just denunciations of the Citizens party, which he rightly declared could never regain the confidence of the people "while it has stolen goods in its pockets." The Gazette agreed with that year-old opinion. That is the sum of its offending. The Citizens party has not returned the "stolen goods," it has not redeemed one of its political pledges, it has given this city a disgraceful administration, replete with violations of its own platform and of the confidence of the people. The editor of the Leader has undertaken to apologize for that discredited organization and because there is nothing truthful that can be said in its favor he resorts to malicious and reckless falsehood.

Work of the Courts.

Strong confirmation of the plea for an additional law court in Allegheny county is afforded by the necessity of calling in Judge Umbel of Uniontown and Judge Patton of Kittanning to assist in disposing of the criminal list. Nowhere in the state do the judges work harder than in this district, yet the calendar is in arrears, increasingly so.

It is true there are many judges in this state in proportion to population when compared with Great Britain. The fact does not help the situation. There must be more judges to transact the business or there must be a change in the mode of procedure and in the jurisdiction of the minor courts. Abuses that have crept into the latter have been pointed out by The Gazette and these abuses should be reformed. They add unnecessarily to the work of the county courts. The whole system of jurisprudence would be the better for careful amendment to secure more prompt and more exact justice.

Neither Humane Nor Wise.

Before the Humane societies' convention in Philadelphia a young woman argued earnestly to obtain sanction for a propaganda for the extinction of human beings "hopelessly" injured or ill. Some years ago a doctor urged a law to authorize the killing of the "hopelessly" insane. The young woman mentioned had been terribly impressed by the sufferings of a locomotive engineer pinned in a wreck until he died.

These people who desire to kill the "incurable" by means of supposedly merciful anaesthesia are sincere, of course, but they are wrong. "Thou shalt not kill" was not restricted to human kind in good health. No man is competent to say who is incurable. The experience of centuries brought forth the proverb, "While there is life, there is hope," and a vast majority of old medical practitioners, the men who have the best opportunities for observation along this line, will repeat the maxim and discourage mortal interference with the processes of nature.

Pain is shocking, but agonies of torture are often survived. Sometimes where there is the appearance of great suffering there is actually none. Great injuries are frequently less painful than minor abrasions. The proposition to put men, women and children out of pain and into their graves is monstrous and is not humane. Man presumes upon higher prerogatives when he suggests it.

Educating Negro Farmers.

William Polk, a prosperous planter of Louisiana, has received the co-operation of the secretary of agriculture in a plan to instruct southern negroes in farming, which may be a possible factor in the solution of the race problem. On a tract of 2,800 acres, set apart by Mr. Polk, an expert from the department of agriculture is to conduct a governmental demonstration farm, where negroes will be taught that other crops besides cotton can be raised to advantage. Every detail of practical farming, including the preparation of the soil, will be thoroughly taught, and if the pupils give evidence of ability to utilize the knowledge gained, similar farms will be established throughout the south. The idea is to make the negro a "constructive farmer." "Heretofore," says Mr. Polk, "the negroes have been imitators and copyists: they should be taught to do some thinking on their own account."

For years the negroes of the south have exhibited a tendency to flock into the towns. Work in the country which they can best do has been neglected, on the plea that it could not afford them a living such as they can gain in the centers of population. The southern negro is happier and safer in the country; his strength and endurance can be turned to good profit under proper training; as an independent farmer he can play an important part in the work of the community. In the opinion of a friend, "the negro can be made the best husbandman in the world." He is to be given an opportunity to prove it. The experiment is a significant one.

One Standard of Morality.

The Leader said yesterday:

It is stated that if Quilitz plants that $100,000 and gives himself up, he can be sentenced only to three years' imprisonment for larceny. Three years at $33,333.33 per! The game is surely worth the candle.

This gem is from the apologist for the Citizens party, charged by City Controller Larkin with having "stolen goods in its pockets." One thief or another, it makes no difference to the Leader, if the stake is large enough it is willing to apologize for and defend them.

The Church Bazar.

The season for turkey and oyster suppers, bazars and sales of fancy articles under the auspices of church societies is approaching. Therefore, the protest of Iowa clergymen against this method of coaxing dollars from the pockets of members and others into the coffers of the church possesses the merit of timeliness. No man would hold oyster suppers in order to buy a carpet or furniture for his home, say these clergymen. When the family exchequer runs low, no worthy citizen invites his friends and neighbors to come in and have supper with him, and then assesses them half a dollar apiece as they are leaving. The cheerful giver who demands a turkey supper in return for his contribution is not among those mentioned in the scriptures as entitled to future reward for his action. On the ground that the bazar turns the church into a public mart, a restaurant and department store, thus diverting it from its intended purpose, a determined attempt is being made to influence public opinion against this form of raising money for the church.

The chief objection urged can be obviated by hiring a hall or other suitable place. Indeed, this custom quite generally obtains in Pittsburgh. There is little hope of abolishing the time-honored institution of the bazar and oyster supper, especially in the rural districts. In the large city other and more garish attractions may afford a fairly satisfactory substitute, but the countryside will not soon abandon that exhilarating combination of philanthropy and amusement. The victim of the average church bazar, who has purchased a number of articles he did not want at prices he could not afford, under the hypnotic eyes of fair saleswomen, shares the feeling of the confiding farmer who has invested his savings in bricks of that which glitters, but is not gold. But this is part of the game. The church bazar is the religious substitute for the horse race and poker. It has a distinct mission to perform in chastening the spirit of pride. We cannot afford to let it go.

QUIET OBSERVATIONS ON WAYS OF WORLD

Constrained Against Your Will You Hold the Same Opinion Still.

By ERASMUS WILSON.

"You need not waste your precious time trying to stop the kissing habit," writes "Constant Reader," who claims to have read The Gazette for half a century.

"I have read with much interest all you have written on the kissing question, and still watch for more. Some folks advise you to cut it out, but they don't mean it, for they like to read it as well as I do.

"I don't mean to tell family secrets, but I know a woman, and she is as good a woman as God ever made, who says she can't see, nor understand, how you can write that kissing nonsense when there is so much else that ought to be written about.

"Here is where the joke comes in. She reads the kissing pieces the same as I do, and enjoys them as much, but she doesn't like to 'fess up, as the feller says. And she pretends that she has forgotten all about the kissing bees, and the sparkings, in her cabin home, and lots of other occasions, but I haven't, and I never will, and I would be awfully sorry to think she really had forgotten them.

"Keep it up, old boy, and you will have lots more readers than if you confined yourself to purely Sunday school pieces. It's human nature, I tell you, and what's human nature can't be changed by legislatures, old maid conventions or side talk by those who are against kissing because they are no longer kissable."

* * *

All right, "Consty," you shall have a bit of good, tasteful reading occasionally. And, unless all signs fail, you will not be the only one made glad.

From up the Mon valley comes a few lines to the effect that kissing is apt to make trouble, in proof of which a clipping from an up-river paper retailing the particulars of a bloody fight started by a man kissing another man's wife, is enclosed.

This only proves that indiscreet kissing is risky, and not that discreet, well-ordered kissing is sinful. Some men haven't sense enough to come in out of the wet, therefore can't be trusted to do anything, not even the right thing, at the right time, nor in the right way.

What would you think of a man who butted in and kissed another man's wife without being certain that the other man wouldn't hear of it? Such a chump isn't entitled to a kiss—not even to a little one.

* * *

Women talk volumes about kissing, and mostly against it, and yet they are most inveterate kissers, even kissing each other rather than not to kiss at all.

And these same women make sick faces when they see, or hear of big, beery, whiskered foreigners kissing each other. Haven't these men as much right to kiss each other as home women?

If you will note the conduct of Russians and Slavs generally, on their arrival at an emigrant station you will see dirty-faced, whiskered men kissing each other, while the women may indulge in a handshake, and nothing more, and often not even that.

This shows the very poor taste of the men. But one can hardly blame the women for not kissing these big, bewhiskered fellows. It would be a hard dose for a woman of good taste. No woman can be blamed for not wanting to be kissed by a foul-mouthed man, whether the foulness is without or within.

A nice, clean man is different, don't you think?

* * *

Mr. Quiet Observer—What's all this talk about the kissing question? It's a subject that will not down, it seems. And why should it?

Since the days when the world was young, the kisser and the kissee have been abroad in the land. I've not the smallest doubt that when our great grandfather first opened his eyes from that deep sleep which had fallen upon him, and beheld the helpmeet at his side, he greeted her with a kiss, even though he promptly named her wo(e)man.

And it is most definitely stated that Jacob kissed Rachel and lifted up his voice and wept—tears of joy, doubtless, at sight of the goodly number of sheep representing Rachel's dower, for Jacob was a grasping old party.

Time would fail me to speak of later historic kissers down to the present time.

And where is the pretty maid of today who has never been kissed. I would like to see her, for, methinks she would be a wooden Indian instead of a genuine womanly woman, had no one ever been tempted by the sight of her face.

I once saw a lovely little bride kissed at what appeared to be the wrong time during the wedding ceremony, and I admired the young groom more because he did lose his head slightly!

Why! I have even been kissed myself! and if I hadn't I'd be ashamed to admit it.

Enough is enough and too much is plenty when it comes to this matter, just the same as anything else, but all success to the audacious lad who steals a kiss when he doesn't have much chance; and plenty of admiration to the bewitching lassie who does not give him an opportunity!

AN OLD MAID.

How comes it that she is an old maid? Anyhow, she isn't one of the sour, unkissable sort, which is something to be thankful for.

Old maids of this type are good things and altogether worth while. This world is much better for their living in it.

You may have, or have had, an old maid aunt, or have known one whom you called aunt. If so, you in all probability call her blessed, think of her kindly and tenderly, and feel yourself greatly indebted to her.

The old maid is a good thing, particularly if she is a good kissable sort. She is ever the friend of boys, and never tires of them, and they never tire of her, no matter how the years go, and none are ever the worse for having known her.

Some folks think it a great pity that such women as grow into good old maids never married.

More the pity if they should, for then the world would be deprived of some of its very best agents for good.

Long live the old maid, the kissable old maid, so say we all.

Our National Shame.

When we Americans reflect that in Chicago alone there were three times as many downright divorces in 1903 as in all England and that Los Angeles, in the same year, had 86 divorces to 1,818 marriages, we wonder what the English find in their statistics to worry about. It is the tendency in the wrong direction that alarms thoughtful Englishmen, and from that point of view they are justified in their alarm. But how justify our indifference to our divorce statistics beside which theirs sink into utter insignificance?—Boston Traveler.

THE WILLING CAPTIVE.

Bind me, ye woodbines, in your twines,
Curb me about, ye gadding vines,
And oh, so close your circles lace,
That I may never leave this place;
But, lest your fetters prove too weak,
Ere I your silken bondage break,
Do you, oh brambles, chain me too,
And, courteous briars, nail me through.

Here at the fountain's sliding foot,
Or at some fruit tree's mossy root,
Casting the body's vest aside,
My soul into the boughs does glide;
There, like a bird, it sits and sings.

PUPILS MARCH BY A DYING TEACHER

Ranks Are Not Broken Though Expiring Woman Drops Before Their Eyes.

By FRANK A. PARKER.

[By Private Wire to The Gazette.]

NEW YORK, Oct. 12.—Marching past the body of a teacher who had been stricken on the stairway of public school 147, the 1,000 or more boy pupils of that school, which occupies the center block bounded by Broadway, Henry and Gouverneur streets, did not lose their heads today, and were gotten to their rooms without showing any signs they realized a sudden death had taken place right before their eyes. The stricken teacher was Miss Julia S. Wiley, who had charge of a class of boys ranging from 11 to 14 years in age, and numbering 60. This was the day for the regular weekly fire drill of the 2,400 pupils of the school, and Miss Wiley took her station on one of the landings, as was her custom, to direct the boys' part of the drill. A small portion of the column had passed her when two of the boys noticed the teacher turn pale and appear as if about to totter over.

The two boys quietly stepped out of the line and, taking hold of Miss Wiley, tried to support her. Their strength was not equal to the task, however, and the teacher sank to the floor. The pupils continued to march past as if nothing had happened, and were marched back upstairs to their rooms again without betraying any excitement. In the meantime Dr. W. L. Ettinger, the principal of the school, was sent for. He saw that Miss Wiley's condition was serious and caused an ambulance to be sent for from Gouverneur hospital. When it arrived the surgeon who accompanied it pronounced Miss Wiley dead.

To Improve City's Water Supply.

The special commission on water supply, appointed by Mayor McClellan, and consisting of J. Edward Simmons, Charles N. Chadwick and Charles A. Shaw, submitted to the board of estimate and apportionment today an outline of its recently completed plans for furnishing the city with increased water facilities. The plan of the commission provides for an addition of 250,000 gallons daily to the present supply, and includes the building of a great reservoir and aqueduct suitable for the ultimate development of a supply of 500,000,000 gallons daily. To construct this and a filtration plant will cost the city $151,857,000 according to the estimates of the engineers.

Sugar Warehouses Are Glutted.

The ships of the Java sugar fleet are coming into port on the heels of each other, glutting the receiving capacity of the refineries and crowding the warehouse docks to their fullest capacity. With the arrival of the Heathdene at quarantine this morning, the score for October shows 11 ships, 10 of them bringing a total of 116,864,500 pounds of sugar, over 5,000,000 pounds more than was received here during the entire month of September. The Heathdene's cargo and that of the Eccles, which is on the way from Delaware breakwater and due to arrive today, are not counted in these figures.

Society Woman Owns Joint.

Commissioner McAdoo received assurances today from the owners of the house at 118 West Thirty-first street, occupied by the recently raided Bon Ton Social club, that the lease would be terminated on November 1, and the organization asked to vacate. "The house," said Mr. McAdoo, "is owned by a woman of social prominence in the city, and I have from her son-in-law the assurance that she had absolutely no knowledge of the uses to which her house had been put."

Too Much Talk Kills Him.

Pietro is dead—literally talked to death by 400 multi-colored parrots, which made the trip up from Panama with him in the hold of the steamship Mexico, now here from Colon. Pietro is a monkey, or, rather, was, and it would have been his business, had he survived the animated talkfest on board ship, to show himself in the streets of this glorious metropolis on top of an organ grinder's portable orchestrion. But it was not to be; these birds had been trained down there in Panama to speak all the slang there is in Spanish. And Pietro couldn't live through it.

Leonard Will Fight the Case.

The belief that Harry A. Leonard, the young bank messenger who secured $262,000 worth of stocks and bonds from the National City bank by means of a bogus check, and who made the novel defense he had taken the securities "just to show how easily such a trick could be turned in Wall street," would plead guilty was dispelled today when the grand jury brought in an indictment against him charging larceny in the first degree. Abe Levy, the young man's attorney, has announced his intention to fight the conviction of his client on the ground no criminal intent can be shown.

Judge Hamilton Fails to Arrive.

Although the name of "Judge" Andrew Hamilton of Albany appeared on the advance list of the White Star line steamship Baltic, the name was dropped from the ship's list, and Mr. Hamilton was not on board so far as could be learned when the Baltic arrived today. It was rumored that about the time Judge Hamilton was about to sail he received a cablegram that caused him to change his plans. It is possible, so ran another rumor, that he may arrive on Saturday.

SOME GOOD STORIES OF PITH AND MOMENT

Gossipy Chat and Anecdote of Entertaining and Instructive Character.

The New York correspondent of the Cincinnati Times-Star relates the following good story:

"Hurry up! We want to get married quick." This remark was addressed yesterday to Magistrate Joe Levy, who is known as "The Duke of Essex Street."

"Certainly," replied the duke. "I am the quickest marrier what is."

He filled out a blank and escorted the couple into a back room.

"I read in the papers," said the groom, "that you could marry people quick."

"Quick!" said the duke. "You watch. I have beat the court record. Now, attention! Shake hands! Do you like each other?"

"Yes," exclaimed the groom.

The bride, who was blonde and 18, blushed and nodded.

"All over," said the duke as he looked at his stop watch. "You win in a gallop. You are hitched now. This beats my best time. It was six seconds. The best before was eight. It is a world's record."

The duke gazed at the couple with a patronizing glance that was not wholly without pride.

Just then a short man rushed into the office. "Mine daughter!" he exclaimed.

"Vater!" sobbed the bride.

"What is this?" exclaimed the duke.

"She runs away," said the father.

"Just married her," exclaimed the duke. "Time, six seconds."

"Ach!" exclaimed the father. "Too late. I forgive you both."

Then the two departed, while the duke smiled expansively.

The Peevish Man.

"Once in a while you run across a man who makes you peevish," said the man with the new winter suit on. "I know a fellow named Beach. Have two lumps in your tea, Mr. Beach?' he was asked recently. 'I beg your pardon, madam, my name is pronounced Be-ach!' When the fruit course at dinner arrived, he didn't like it when she said: 'Have a pe-ach, Mr. Be-ach!'"

The Proper Answer.

Jack Barrymore inherited from his father the gift of repartee. In London recently he met that rare specimen of humanity, an impertinent and presumably witty Englishman.

"You were born in the United States, I suppose, Mr. Barrymore," he said.

"Yes."

"And, like most of your countrymen, proud of it, I presume!"

"Wait a minute," Barrymore rejoined. "Before I reply answer me a question. Are you an Englishman?"

"Certainly."

"Then," said Barrymore, slowly and thoughtfully, "yes."—New York Times.

Delightful Custom.

"I spent my vacation in a quiet little village in Northern Mississippi," said a young man, who has just returned to town, "and while there naturally went to call on one of the girls in the neighborhood. After spending two very enjoyable hours at the residence, I thought it time to be leaving, and thus expressed my intention. 'Why, going already,' replied the girl. 'Why rush away—it is early yet?' 'How long,' I asked, 'is it the custom here for the boys to call?' 'Oh,' she said, 'sometimes they stay to 1 or 2—even 3 o'clock, that's nothing.' I accordingly availed myself of the privilege and remained until midnight. What in the name of seven sages can two people find to talk about during all these hours! The mother of the girl vigorously protested against this night-owl proceeding, but all in vain. About 12 o'clock they will begin calling from the head of the stairs: 'Clara, dear, bring me a glass of water, please, and Clara will get the water. In about half an hour auntie will call down: 'Clara, can you bring me a glass of water,' and this time Clara will quietly carry the water cooler up to her famished relatives. At 1 o'clock mother and auntie will throw their shoes upon the upper floor as a suggestion that it is high time for all callers to be at home, but Clara and her beau are utterly oblivious to such sounds—really, I do not think they hear them. It is said that once when a devoted swain had sat and talked, and talked and sat until after 2 o'clock in the morning the exasperated mother of the girl came down and asked the young man how he would prefer his eggs cooked for breakfast. Upon another occasion, when the hour was far nearer dawn than twilight, a little girl was sent into the parlor and presented the lovesick couple with a large bunch of morning glories. What excellent night watchmen the boys in that town would make!"—New Orleans Times-Democrat.

Congressman Gardner's Escape.

Congressman A. P. Gardner of Hamilton, Mass., tells the following story: It was at a little shooting party which was attended by some of the elite of that vicinity, and more than one of the party felt a little nervous about a certain young Englishman, as he and his gun seemed strangers.

Nothing occurred, however, until Mr. Gardner felt something poking him in the side as he crept along. Turning quickly, he found the novice prodding him with the muzzle, and fumbling with the hammers of his gun.

"Hi, Gus," he said, "before we get on to the birds you might just show me how you let these 'ere triggers down!"—Boston Herald.

The Toby Will Not Go Out.

Several prominent capitalists in Pennsylvania have proposed a new plan for clearing the atmosphere of Pittsburgh. It is to build an immense power plant 20 miles in the country and transmit by cable the electric power needed to run the machinery. This method would concentrate the smoke in a locality distant from the populated districts and give, it is claimed, an abundance of power in more economic form. The outlay for construction and reconstruction would be immense. To change the machine appliances of a big city is a large proposition, but not essentially impracticable. Already vast strides have been made in the industrial uses of electricity.—St. Louis Globe-Democrat.

Sulking Does Not Pay.

A Republican daily is to be established at Birmingham, Ala. There is an increasing number of southerners who are convinced that the old policy of sulking doesn't pay.—St. Louis Globe-Democrat.

STORIES FOUND IN THE LOBBIES

Interesting Happenings Concerning the People Who Are Traveling.

That America has done more for the people of Porto Rico in education than in any other phase is the opinion of Julius Ucera, who has been spending a couple of weeks in Pittsburgh studying American business methods. Mr. Ucera is from Ponce, Porto Rico, where his father, Vincent Ucera, is one of the leading citizens and financiers. The young Mr. Ucera is making his headquarters at the Seventh Avenue during his stay in Pittsburgh. He comes from the best class of Porto Rico and was graduated from Notre Dame university, after having completed his secondary education under private tutelage in Ponce.

"I know that the feeling of the people of Porto Rico, the best class of the native population, is that America has done and is doing more for the people in education than in any other way. Before the island became an American province our people were deficient in a commercial sense and carried on a splendid trade with America. This will be studied for by those American merchants who were interested in that trade.

"The public school system is just now being put into the shape that was outlined by Dr. M. G. Brumbaugh, the first superintendent of education in the province. We have had some good men interested in the educational development of Porto Rico since he left there after spending a year in organizing the public school system, but we have never had a man who could take hold of the work and make the people feel that they are being given what is deserving. I know that it is the feeling that Dr. Brumbaugh did more for the people of Porto Rico than any other American who has been in authority there in any capacity. The people have regretted that he was compelled to leave the island because of the climate not agreeing with him. He is certainly a grand man."

Dr. Brumbaugh is head of the department of pedagogy in the University of Pennsylvania, and is also president of Juniata college at Huntingdon, Pa. He is well known in Pittsburgh educators and teachers from his having lectured here at the institutes and on other occasions.

Hotels Filled to Overflowing.

The Pittsburgh hotels are doing the most thriving business in their history. For the past six weeks there has been hardly a night that has not found from three to six of the hotels filled, and some nights have found them all filled. Providing extra cots and placing these in rooms together has been resorted to often, and still the people continue to pour in at a late hour from the trains. The Pittsburgh exposition has been the occasion for a portion of this business, but the hotel people say that the traveling men are here in greater numbers than has ever been known in the fall season. Out-of-town buyers have also come in goodly numbers. Last night six hotels were filled at 11 o'clock, while the other hotels had only a few rooms left. While the traveling men will welcome the opening of the new Fort Pitt hotel, the other Pittsburgh hotel people will also be glad of it, for it will give at least temporary relief to the overflowed conditions.

Auto Sportsmen Going to Race.

Two special Pullman cars were attached to the Cleveland flyer when it pulled into Pittsburgh last evening. In the cars were Cleveland men who are interested in automobile racing. They are going to New York to be present at the International races for the Vanderbilt cup on the Long Island course, tomorrow. It could not be learned if any of the party will be contestants for the cup. There will be five American machines in the race, one of which will be the Flat car driven by M. Chevrolet for Maj. Miller of Franklin.

Mining Presidents Says Go Southward.

Edwin C. Kirk of Mayer, Ariz., left for the east of the Pennsylvania last evening after having spent two days here on a pleasure visit. Mr. Kirk is president of the Queen City Copper Mining Company, whose mines are located near Bagdad, Ariz. He says that prosperity reigns in the southwest and that the great section of the country there is merely in its infancy in development of vast resources. He advises people to go to the southwest.

Clearfield County's Splendid Ticket.

It is a fine thing when a party makes up its ticket of men against whom no personal objections can be made, as the Republicans of Clearfield county have done for the fall election. Never did the party choose candidates who stood better with the people because of their splendid character than those on the Republican ticket this fall.—DuBois Courier.

Congressional Record Gets a Jolt.

Representative Charles B. Landis declared that about $500,000 is being wasted on government printing. As he is chairman of the committee on printing of the house of representatives and head of the joint committee of both branches of congress appointed to make an official inquiry into the subject, he ought to speak by the book.—Scranton Times.

Man in Search of Information—How do you account for the

REPUBLICANS TO ADOPT PLATFORM

County Committee to Meet Oct. 21 to Issue a Declaration of Principles.

FIGHT CENTERS IN THIS CITY

There will be a meeting of the Republican county committee on Saturday, October 21, to adopt a platform for this campaign. At the same time the workers will be given an opportunity to meet the candidates.

Under the direct vote system of nominating there are no conventions and consequently no opportunity is afforded for the adoption of a platform. There was some talk of leaving this work to the Republicans who will attend the opening rally in Old City hall tomorrow night, but Chairman T. J. Ford thinks the county committee is the proper body to prepare and adopt the declaration of principles.

While the Pittsburgh common council chamber is not large enough to hold the hundreds of committeemen who will attend the meeting, it is probable the gathering will have to be held there, as no other hall is available. If a better place can be secured, Chairman Ford will change the place of meeting.

There will be a big attendance at the opening mass meeting of the Republican campaign to be held in Old City hall Saturday night of this week. The demand for information concerning the rally is daily growing stronger at headquarters. H. G. Wasson, chairman of the committee on meetings and speakers, expects a record-breaking attendance.

Old Soldiers Tonight.

The Soldiers' Civic league and the War Veterans' association will hold a meeting tonight in the rooms of the War Veterans' association in Diamond square, Allegheny. Addresses will be made by Irwin K. Campbell, late of the Ninth Pennsylvania reserves; John A. Fairman, late of Knapp's battery, and John W. Moreland, late of the One Hundred and Second Pennsylvania volunteers. Invitations have been sent to the various old soldier organizations.

The joint conference of committees representing the Orphans, Lincoln party, Municipal league and the Independent Democrats, will probably be held Saturday afternoon. At this meeting plans will be made for the county campaign. These organizations are working to secure the election of honest and responsible county officials and will be found giving every assistance to the Republican candidates.

While the Bigelow machine is making a bluff about carrying the county campaign into the country districts, it is not a strong one. The ring will exert its efforts toward piling up a majority in Pittsburgh. The bosses know they have slight hope of winning the county fight. The three country legislative districts will all give largely increased majorities. In Allegheny the Wyman machine has been smashed and the Republican candidates will have a majority of the votes.

Bigelow Wants Pittsburgh.

Bigelow's one hope is to carry Pittsburgh with a majority large enough to give him some prestige in the mayoralty campaign, even though the Republican ticket at the fall election is swept into office by a handsome majority. It is the city he wants. He will leave nothing undone to obtain results.

The Republicans do not concede the city to the Bigelow machine. They expect to make a clean sweep of the county this time and place Pittsburgh in the Republican column. They know that the city is to be the battle-ground and every day there are fresh evidences of the desperate schemes the machine is resorting to. The payroll is being whipped and threatened as it never was before. The public employes are being called before the bosses and told in so many words they must carry their districts for the fusion ticket, by increased majorities, or get off the payroll. It is made plain to the employes that this is a life and death struggle with the bosses. The payroll men laugh. The Bigelow administration will end next April. Threats have no terrors for the men.

Thousands of Tax Receipts.

The Citizens and Democrats have asked for thousands of tax receipts. The majority of them are for use in Pittsburgh. Delinquent Tax Collector E. G. Mattern claims orders for these receipts were placed with him before the closing hour of the office on October 7. He will issue everything that was asked for. Hundreds of receipts are being secured for some of the Hill wards. Whether legitimate voters receive them remain to be seen. The fusion headquarters send the orders and the money to Mattern and he issues the receipts on the names given. As there are over 100,000 names on the registry list of people who have either died, removed or do not vote, a great field for illegal voting is offered.

The Hebrew storekeepers in the Hill district are being coerced by the police in the hope they can be forced into voting the fusion ticket. J. Schien of Schien & Lasday, 820 Fifth avenue, and M. Amdursky, 1022 Fifth avenue, tell of visits from the police. These men are orthodox Jews and observe Saturday as their Sunday. Mr. Schien says a policeman called on him last Sunday and told him he would have to close his store. "Tuesday I was visited by another man," said he, "who told us we could do as we pleased and asked us to vote for somebody."

Adler Makes a Call.

Mr. Amdursky was told on Sunday to keep his place of business closed. The notice was given by a policeman. On Tuesday Samuel Adler, city milk and meant inspector, visited Mr. Amdursky. "He told me there were some good men on the Citizens ticket," said Mr. Amdursky, "and if I could see my way to support that ticket there would be no trouble."

Mr. Feitler of 705 Fifth avenue said: "If I am arrested for keeping my store open on Sunday I will go over to the Hermes ice cream factory and make trouble. Wagons haul goods from that place all day Sunday."

The Republicans of Homestead held an enthusiastic mass meeting last evening in McClures hall. L. L. Davis, chairman of the Sixth legislative district organization, presided, and the principal speakers were Chairman T. J. Ford and Attorney J. A. Langfitt. Mr. Langfitt was one of those named by F. X. Barr, the Democratic-Citizens candidate for clerk of courts, and who is chairman of the committee on meetings and speakers of that outfit, as a member of his committee. As a matter of course Mr. Langfitt declined to serve. There were a dozen others who declined to accept Mr. Barr's appointment. Mr. Barr was not well acquainted with the majority of those he named as his committee.

HOLDS SMITH FOR COURT.

Allegheny Policeman Is Accused of Brutally Beating Man at North Side Polling Place.

Policeman Charles B. Smith of Allegheny was given a hearing before Alderman Toole yesterday on a charge of assault and battery, preferred by Henry Reddinger of 512 Dunloe avenue, Allegheny. The case grew out of a row, at the Republican primary election, September 16, at the Third ward school house. Reddinger was the chief witness and conducted his own case, while Smith was represented by Assistant City Solicitor W. W. Stoner of Allegheny.

Reddinger testified that he went to the polls to vote for John A. Fairman for county recorder, and was talking with a friend when Smith interfered and ordered him away from the polls. He refused to go and he says Smith took him by the throat, shoved him across the street, knocked him down, rendering him for a time unconscious and then sent him to Central station in a patrol wagon. Charles Falkenstein and Harry Patterson, both residents of the voting precinct, corroborated Reddinger's testimony and Smith was held in $500 bail for court.

Ore Record Will Be Broken.

ASHTABULA, O., Oct. 12.—(Special.)—Five million tons of ore have been received at Ashtabula up to this time. It is now estimated here that 6,250,000 tons will be secured during the season. The greatest previous total for the entire season has been 4,821,580 tons.

WYMAN STRIKES REVENGEFUL BLOW

Because of Cochrane's Poor Showing in Twelfth Ward Orders Closing of Four Clubs.

COUNCILMAN HERING ANGRY

Mayor Wyman of Allegheny is manifesting his dislike for the manner in which the Republican leaders in the Twelfth ward worked for John A. Fairman at the primary election. Wyman counted on a big majority in the Twelfth for Robert K. Cochrane, the Allegheny machine favorite in the recordership contest.

Prior to the primary there were four or five clubs in the Twelfth patronized by the young men of the ward. In these gathering places the ward politics are planned. Nothing was ever said about the clubs before the election because the administration leaders were confident of carrying the Twelfth.

When the vote was counted the mayor was angry. Acting Superintendent John Glenn got orders to close the places immediately, and the police carried out the orders. This caused indignation, and Councilman Fred Hering went to city hall to get an explanation. He and Mayor Wyman are not the best of friends, so Hering interviewed Glenn. The latter admitted no complaints had been lodged against any of the clubs. Glenn said he simply got his orders and had to carry them out.

Then two plug inspectors, competent men, according to the city engineers, were discharged. They were friends of Hering.

There were some members of the club who were friendly to the administration until the order was given to close them. Now nothing but talk antagonistic to Wyman can be heard in the Twelfth. Councilman Hering said yesterday:

"There can be no doubt of the motive behind the order to close all clubs in the Twelfth. I know of a large number of speakeasies and gambling resorts down in the Woods Run district that are running every day and every night. Two of the largest resorts in the city are operating on Beaver avenue, one of the busiest thoroughfares in the city, and police lieutenants and patrolmen make these resorts their loafing places. Clubs and gambling houses are flourishing in all parts of the city except in the Twelfth, but the mayoralty fight will show that a mistake has been made."

He was a member of Camp Walker, United Confederate Veterans, which followed the body to the grave as an honorary escort. Gen. Clement A. Evans, division commander of the United Confederate Veterans, officiated at the funeral, and among the pallbearers were former Gov. Allen D. Candler, Gen. A. J. West, Judge W. Lowndes Palhoun, Dr. Amos Fox and R. S. Osborne.

Rucker followed his master, "Sandy" Rucker, through the civil war in the Thirty-third Georgia infantry, and has been a familiar figure at Confederate reunions for years.

MAJ. M'DOWELL CONFIDENT.

Has No Fear for Success of Republican Ticket in State and Philadelphia County.

WASHINGTON, Oct. 12.—(Special.)—Maj. Alexander McDowell of Sharon, Pa., clerk of the house of representatives, was in the city today and left this evening for his home. The major is scheduled to speak at the big Republican meeting at Philadelphia on October 18.

"There is nothing for the Republicans to be frightened about in our state," he said today. "Everything is in good shape and the ticket will go through with a big majority. I do not think the county ticket in Philadelphia is in danger. Pennsylvania is prosperous and the people do not care for a change."

SECOND ORGAN RECITAL IS ONE OF EXCELLENCE

City Organist Caspar P. Koch last night presented an unusually good program at the weekly organ recital at Allegheny Carnegie Music hall. The concert was the second of the present season, and was largely attended. Morandi's concert overture received its initial performance at the recitals, and Bach's fugue in D minor was one of the organ numbers. Mr. William Nevin Shaw and Miss Alice Nilsen Price were the soloists assisting Mr. Koch. Mr. Earl Byron Byers accompanied on the piano.

SUIT OVER A BOY'S DEATH IS AMICABLY SETTLED

The suit of John Weber of McKeesport against William McSeveny, a former policeman of that city, from whom Weber asked $10,000 damages by reason of the death of his son from a bullet wound inflicted by the officer, has been amicably settled and Weber has withdrawn the suit. The basis of settlement was not given out.

Enough Money Now Assured.

Further arrangements for the big mardi gras celebration in the East End on Hallowe'en, October 31, were made last evening at a meeing of the Capt. J. A. Batchelor association. Reports were heard from a number of business men who will have displays in the daylight parade, and many accompanied their announcements with contributions. Treasurer E. G. Ralinson reported that the association had sufficient funds to carry the affair to a successful culmination.

Daugherty Returns to Workhouse.

Joe Daugherty was released from the workhouse yesterday after completing a 90 days sentence, but his liberty was short-lived. At 2 o'clock in the afternoon a policeman found him beating Davie Brennen near the Newsboy's home. A woman testified she had seen Daugherty's hand in Brennen's pocket. Magistrate Kirby sent him back to the workhouse, duplicating the sentence which he had just finished.

BANKERS FAVOR SHIP SUBSIDIES

American Association Goes on Record for Upbuilding of Merchant Marine.

WANT EMERGENCY CURRENCY

[By Associated Press to The Gazette.]

WASHINGTON, Oct. 12.—The American Association of Bankers today put itself squarely on record as favoring government subsidies for the upbuilding of the American merchant marine. Resolutions reviewing the growth of the American commerce and the decline in American shipping and pledging the association to throw the weight of its influence towards the enactment of a ship-subsidy law were presented by the executive council of the association and adopted by a rising vote, in which it was estimated that three-quarters of the delegates took the affirmative side.

The report of the currency committee was received, but no action taken thereon. The report followed the suggestions made yesterday by Secretary Shaw in his address before the convention for an emergency currency. Former Representative Pugsley of Peekskill, N. Y., who submitted the report, expressed the opinion that congress would enact financial legislation if the bankers presented a united demand for some specific measure.

The report of the committee on education was presented in printed form by its chairman, J. B. Finley.

The afternoon was given up to sightseeing. In the evening the bankers attended the theaters. The convention will terminate with the session tomorrow.

Warden Johnston Tells of Necessity for Strict Discipline at Riverside.

Maj. William McC. Johnston, warden of the Western penitentiary, was asked last night what he thought of the stories made public by Attorney W. H. McGary, concerning alleged abuse of prisoners at Riverside. Warden Johnston said:

"I don't care to say much about Mr. McGary's yarns. Of course there may be many things Mr. McGary knows more about than I do, but I am convinced he does not know how a big prison must be managed. I would not take the trouble to deny the dreams McGary is credited with getting from a man recently released from the prison.

"Anyone who stops to think of the class of men in an institution like this one will understand in a measure that strict discipline must be maintained. We have 500 men in here, the great majority of whom are vicious and reckless characters. Should we be lax and not inflict punishments for serious offenses it would be no time until murders would be common occurrences.

"We have a man here who has already killed at least one man and some time ago committed a murderous assault on one of the other prisoners. He is serving a life sentence and seemingly has nothing to lose, no matter what further crime he may commit. When such a man shows a tendency to murder those about him, would it be reasonable to permit him every freedom and privilege accorded to those who are quiet and conform to all prison rules? Mr. McGary has been promising to do unusual things in behalf of certain prisoners here. Let him go ahead."

BALLOON HAS MERITS FOR WAR PURPOSES

TOUL, FRANCE, Oct. 12.—The huge Lebaudy dirigible balloon, constructed under the patronage of the war office, made its first successful ascent today with some chief engineers and a party of officers who made an extensive reconnaissance of the military defenses. The distance covered was about 30 miles at a rate of 28 mile an hour. The trip established the merits of dirigible balloon for war purposes.

NORWAY STARTS OUT ON INDEPENDENT LIFE

CHRISTIANIA, Oct. 12.—Premier Michelsen opened the regular session of the Norwegian parliament today. He said parliament would now devote its attention to creating and developing the new Norway which now officially enters the ranks of the absolutely independent states. He announced that a bill would be submitted regulating the control of foreign relations and the consular system.

Gets Position and Loses Hand.

Twenty minutes after Andrew Miller had gone to work for the Pittsburgh & Lake Erie railroad at McKees Rocks last night his right hand was caught between the bumper of a locomotive and freight car and so crushed that amputation was necessary. He was removed to McKees Rocks hospital. Miller applied at the office of the railroad company yesterday and was given a position as brakeman. He was ordered to report at 7 o'clock last night, and it was while he was trying to make a coupling that his hand was caught.

Big Coal Purchase by Lehigh.

PHILADELPHIA, PA., Oct. 12.—(Special.)—The board of directors of the Lehigh Valley Company tomorrow will act on the consummation of the purchase of Coxe Bros. & Co.'s anthracite properties, whose annual output is about 1,500,000 tons. To pay for these mines the company must raise money, and it is likely an issue of about $20,000,000 of stock will be made, present holders to be entitled to one share of new stock for every two shares now held.

MARRIAGE LICENSES.

Charles Bartlett and Amanda Mays, McKeesport.

John F. McFadden and Mary E. Gilmore, Harrisville.

Edward Goggus and Grace Beck, Youngstown, O.

Harris Schreckengost and Maud L. Grienere, Natrona.

Samuel Dray, Steubenville, O., and Nannie Hill, Bellswiller; D. A. Cooper, Amity, and Emma J. Wallace, McKeesport; Ralph Hilliard, Butler, and M. Bertha Meyer, Shaler township; J. S. Campbell, Grove City, and Clara Forquer, West Sunbury; Louis Bott, Allegheny, and Johana Harner, Pittsburgh; James B. Straw, McKeesport, and Anna V. R. Ambon, Allegheny.

Too Much Worry.

Worry kills more people than disease. It turns our hair gray; draws wrinkles on our face, places lines of care on our brow. We worry because we have too much to do. We worry because we have nothing to do. We worry about our friends. Make our friends wonder at our impatient and irritable nature, and if we don't take the trouble to learn the great secret we will worry ourselves into the grave. Worry is caused by a diseased stomach. Lactonene Dyspepsia Tablets cure it. Get them today. A contented mind is surely yours—the greatest blessing man or woman can have. "Ask the Druggist."

A Famous New York Hatter Makes

Oetting's Hats

My assortment of hats, complete in every part, is especially strong in smart, snappy styles for young men.

For those who look to me for exclusive novelties, I have the "Athos"—the noticeable features in these hats are the 4¾, 5 and 5¼-inch crowns which seem quite low in contrast to the 5½ and 5¾ crowns that are more generally worn.

The pictures of the Court Derby and the Heidelberg soft hat are self-explanatory, the majority of our sales are on these two styles.

Best hats at $4 and $3.
Next best are $2.25 and $1.75.

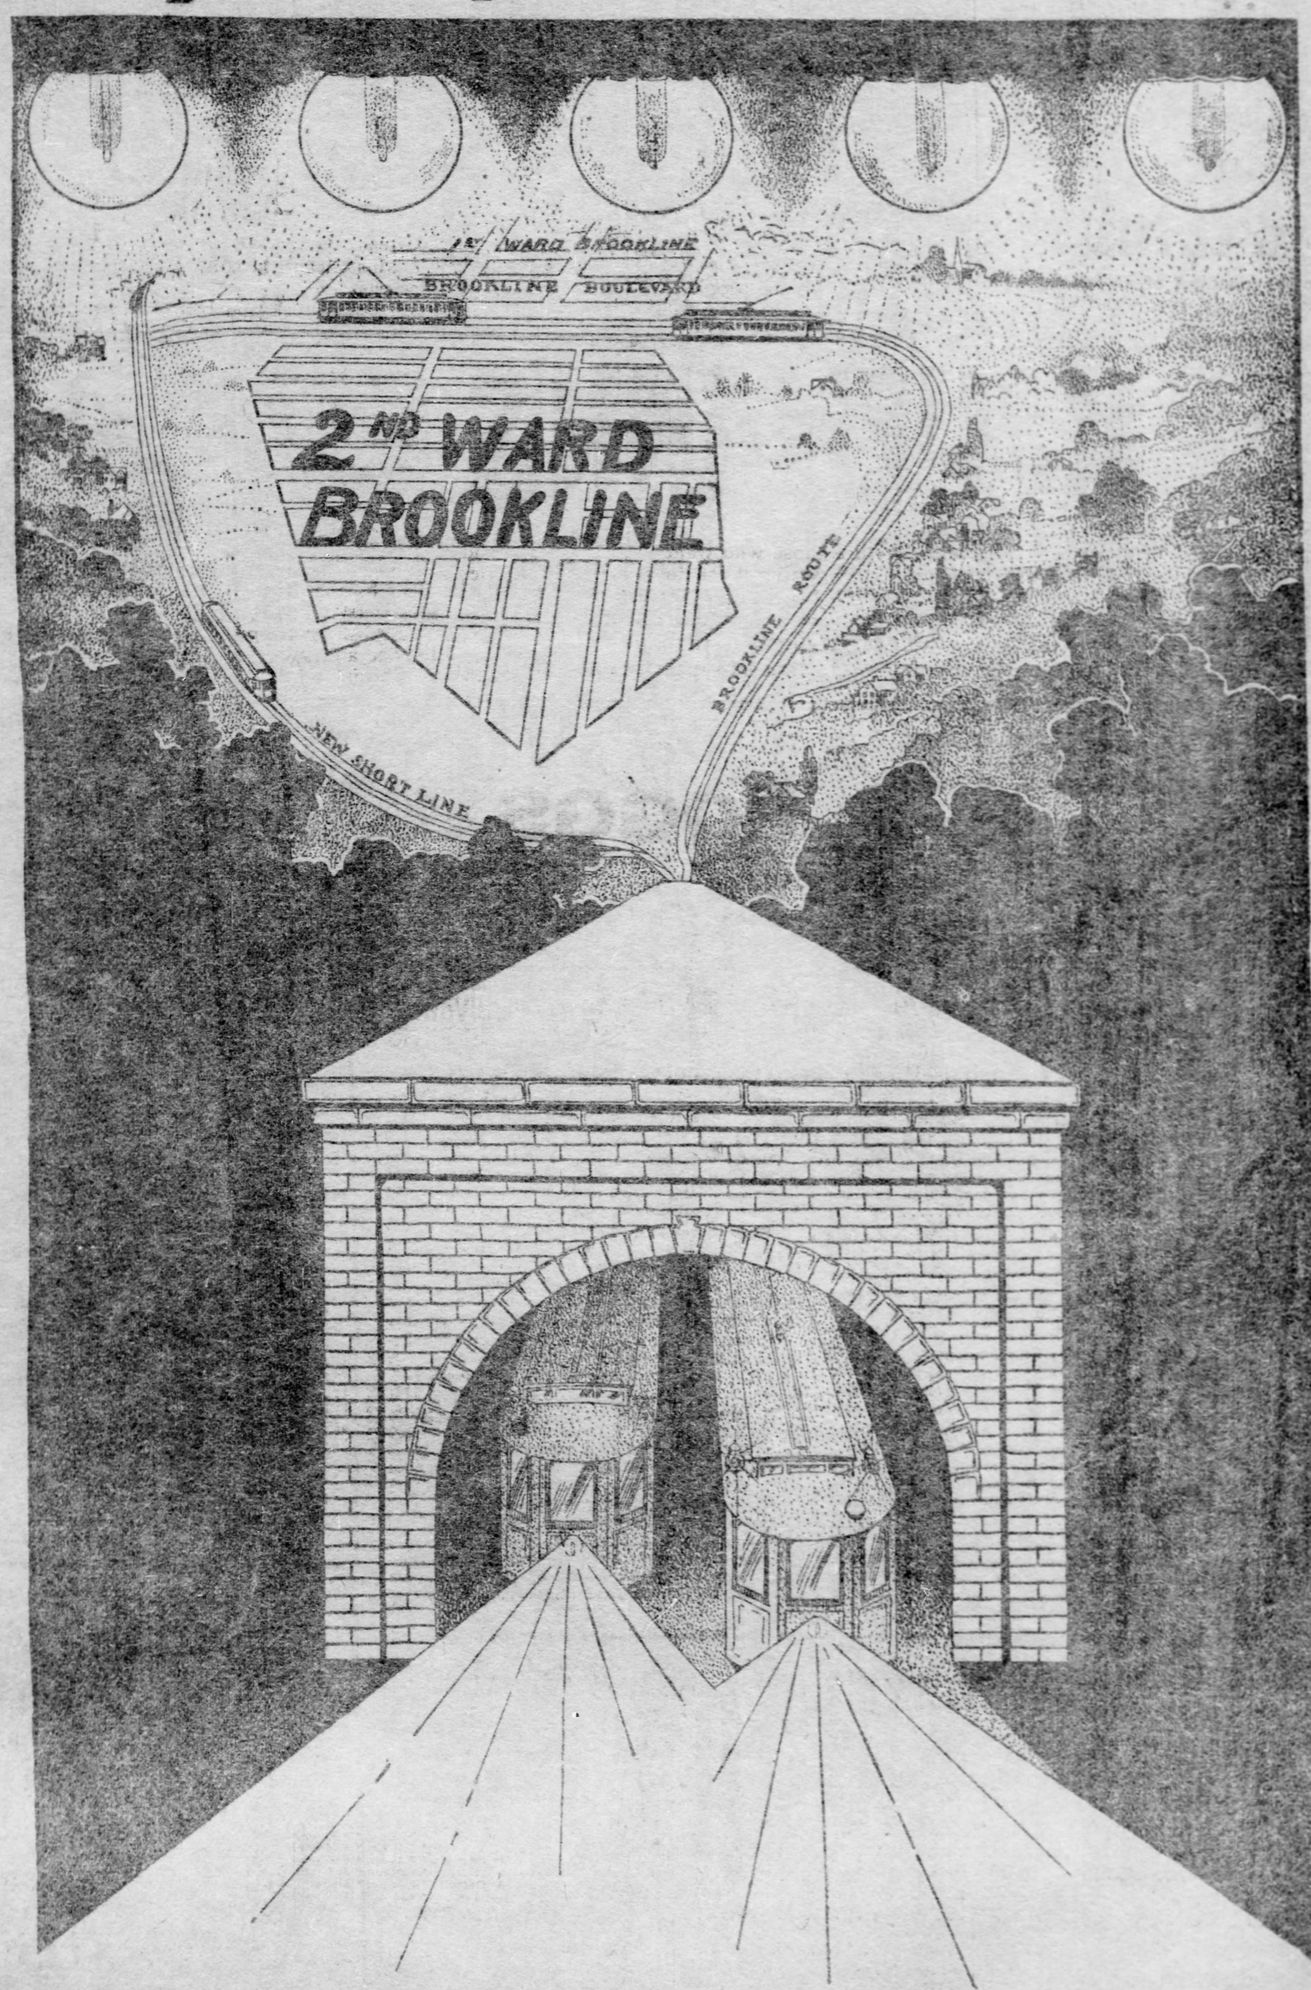
What Do You Suppose Is Arousing Such Tremendous Public Interest in the

2nd. WARD BROOKLINE

Only one answer could be possible!

The unexampled centralization at Brookline of the most important trolley lines which are to traverse The Tunnel District makes plain what sort of an investment you have secured when you have bought a lot in The Great New White City.

You are not securing property in an ordinary lot plan. You are acquiring it in a



component part of Greater Pittsburg itself. The whole true inwardness of this entire undertaking is resting comfortably on the fact that such a location as Brookline, when there's such an outlet as The Tunnel to it, is sure to become one of the finest and most progressive suburbs ever established anywhere.

The Second Ward, now on the market, is a section of this wonderful 15-minute suburb that is going to make enormous profits for its purchasers.

TAKE A BROOKLINE CAR ANYWHERE ON SMITHFIELD STREET, VISIT THE PROPERTY AND GET THE FACTS FOR YOURSELF.

These cars start on Liberty Avenue in front of the Union Depot and pass the B. & O. and the P. & L. E. Depots

The Second Ward, like the First Ward, will have graded, sewered, paved and macadamized streets, granolithic-stone sidewalks, city water and natural gas, and electric lights will be placed at all the crossings.

Most of the lots are 40x120 feet, run back to alleys and front on either paved or macadamized streets. No dust or mud to walk through, notwithstanding prices range as low as $75 to $1,000, on our regular terms of 5 per cent down and 2½ per cent monthly for balance, with no interest or taxes for you to pay for two years.

Electric Lights at Night at All the Street Crossings

Office on Property Kept Open Till 9 P. M.

SOUVENIR GIFT

CONFIDENT that the public would appreciate a valuable memento of such an unusually beautiful and successful suburb as Brookline, we have had manufactured to our order thousands of sterling or solid silver souvenir spoons (tea size) with landscape view showing Brookline Boulevard and the cars passing over the great new 15-minute trolley line artistically embossed in the bowl.

The embossing on the handle is equally superb.

Jewelers tell us it is the handsomest souvenir spoon of any description that could possibly be conceived.

It will be presented free, purely as a gift, to all persons (except children) who may visit the property and there secure the escort or indorsement of one of our representatives.

But the distribution will be confined to Tuesdays, Wednesdays, Thursdays and Fridays. The spoons, however, will be on exhibition during the other days of the week, so that you may examine them at any time and thus become cognizant of the real value of this exceptional keepsake that you are to receive.

Dr. Savage Caustically Comments on Exclusion of Unitarians from Federation.

EMINENT MEN ARE SHUT OUT

[By Associated Press to The Gazette.]

NEW YORK, Oct. 12.—The Rev. Dr. Minot J. Savage of the Church of the Messiah, Unitarian, said today that the executive committee of the inter-church conference on federation which is to be held in this city next month, were as consistent in voting to exclude representatives of the Unitarians from the conference as were the Catholics who burned Protestants and Protestants who murdered Catholics in the middle ages. He added:

"And even consistency itself gets muddled now and then, as for instance, in the treatment accorded to our Unitarian young men in the Y. M. C. A. That organization is anxious they should come in; it takes their money, but in return it is forced by its consistent purpose to deny them the voice in its management, the vote in regard to its affairs that is given to young men of other churches."

Dr. Donald Sage Mackay, a member of the executive committee of the inter-church federation, said of the exclusion:

"Such action could not properly be taken by such a body as this inter-church federation. It has not even a sub-committee to pass on doctrinal qualifications. The Unitarians say they are Christians and desire to join in the work. What can any such conference as this do but take their word for it and admit them? The action taken was nonsensical, in my opinion."

BOSTON, Oct. 12.—The Rev. Dr. Samuel A. Eliot of this city, president of the American Unitarian association, commenting today upon the action of the executive committee of the inter-church conference on federation, said:

"I fear the American people will not believe much in a movement that denies to Edward Everett Hale a place in its councils."

Former Secretary of the Navy John D. Long, who, with the Rev. Dr. Eliot and the Rev. Dr. Hale, was named as a delegate by the Unitarians, thought the report from New York must be incorrect. "No good man," he said, "would be guilty nowadays of any such narrowness."

CRIME OF A DEGENERATE DISCOVERED IN NEW YORK

Portions of a Man's Body Found in Different Localities—Trunk Found in a Hamper.

[By Private Wire to The Gazette.]

NEW YORK, Oct. 12.—Frederick Bauer, 39 years of age, employed as an elevator man, is under arrest on suspicion of having murdered a man, portions of whose body were found today in different parts of the East Side. When captured, the man had blood stains on his clothing and on his body. The dead man is thought to be T. F. Corcoran, an Irishman, evidently only in this country a few months.

Early this morning George Lance, who lives in a rooming house at 149 Third avenue, rushed into the East Twenty-second street station house and reported that he had heard a quarrel, a scuffle and sound of a shot in a room adjoining his own about 2 o'clock. Lance declared he heard the two men fighting, he thought, over a game of cards. Then there was a sound of a scuffle and a shot. Lance heard a body fall and then peculiar sounds of sawing, scraping, chopping, as if a body was being cut up.

Police Capt. Hussey and Detective Henry went around to the house and when they arrived there saw Bauer coming out. They saw the blood on the man and told him to go back to his room.

When the police reached the place it was in a terrible condition. Blood was everywhere. In a hamper that stood in a closet was found the trunk of the murdered man. The head and the legs and arms had been severed. The latter were found in a suit case that stood near the bed.

The police took the prisoner back to the station, and at the same time they arrived there a man reported he had found in front of 615 East Eighteenth street a head of a man wrapped in a newspaper and a blue and white shirt.

BIG CROWD GATHERS TO GREET CONGRESSMAN

Dr. A. J. Barchfeld Entertains His Friends With Observations Made While in Europe.

"I'm as happy as I ever was in my life," said Congressman A. J. Barchfeld in his greeting to over 300 men who gathered at the Lotus club in Sidney street, South Side, to do him honor last night. Mr. Barchfeld's words were drowned in a roar of applause. He was greeted as one of the tallest men in the United States congress and able to measure height with any ruler of Europe, being the equal number of inches with King Oscar and one inch taller than the King of Belgium, who is 6 feet 3.

Congressman Barchfeld was among his own people last night, and every one present paid him special honor. Dr. Barchfeld told his admirers of his meeting with the emperor of Germany, of the German army and how the ambition of Emperor William to be the war lord of Europe had been superseded by his ambition to make Germany the trade empire of the whole world.

The audience was entertained with singing by the Lone Star quartet, recitations by James Whiteside, readings from Shakespeare by E. G. O'Connor and music by Goettle's orchestra. With an old-fashioned German lunch and refreshments and other entertainment, the crowd was kept in a good humor till after midnight.

During the evening Senator Charles Muehlbronner, Robert Ostermaier, Archibald MacKrell, Albert J. Edwards, City Treasurer Samuel Milligan, of McKeesport; George H. Stengel, F. P. Booth, candidate for county controller; George W. Delamater, Emmett Cotton, Charles Andrews, Postmaster Charles Sutter and Justice Charles Barnhart, of McKees Rocks; William Martin, of Homestead; William J. Dietrick of Coraopolis and many other prominent men dropped in to greet the congressman.

Louise Smith, aged 34, an inmate of a house at 528 Third avenue, died at the West Penn hospital yesterday from alcoholism and pneumonia.

The woman was removed to the hospital at 10 o'clock yesterday morning and died ten minutes later. When taken to the hospital her eyes were swollen and bruised and it was said she had been struck by a New Castle man.

Norwood Gillingham, aged 5, who lived in a shanty boat along the Ohio river with his parents, was killed by a train on the Baltimore & Ohio railroad at Rebecca street, Allegheny, yesterday morning at 11 o'clock.

Mike Duddnick, aged 35 and married, was instantly killed at noon yesterday by a fall of slate in the Loyedale mine of the Pittsburgh and Monongahela Coal and Coke Company.

Honors for Pittsburgh.

CHICAGO, Oct. 12.—Pittsburgh was chosen as the next meeting place of the National Paint, Oil and Varnish association at the closing session of the annual convention today. C. D. Wettach, Pittsburgh, was elected president.

CHURCH URGED TO WORK IN SLUMS

Necessity of Organizations to Aid Foreign Poor Is Told in Convocation.

SOME CHARTERS ARE INVALID

At the meeting of the southern convocation of the Protestant Episcopal church, in St. Peters church, Oakland, last night, the Rt. Rev. Dr. J. H. Darlington made the principal address, taking for his subject "Foreign Missionary Work in American Cities." He said he had been 24 years in missionary work in New York city, and detailed many of the obstacles met in the work among the foreigners in the poorer districts. He declared conditions in Pittsburgh and vicinity were exactly similar to those in New York and urged that organizations be formed in every congregation to carry material aid and Christian gospel into the slums.

Bishop Cortlandt Whitehead read a paper on foreign missions, and the Rev. E. P. Smith, of New York city, secretary of the foreign and home missionary societies, made an address on "Modern Missionary Motives and Results."

The morning session was opened with a communion service at St. Peter's church, Oakland, the Rt. Rev. Dr. J. H. Darlington, bishop of the Harrisburg diocese, officiating. At the conclusion of the services Bishop Whitehead presided and a paper on "The Missionary Thank Offering for 1907" was read by Dr. Grange, of the Church of the Ascension. The subject was discussed by the ministers and laymen, and Bishop Whitehead, in bringing the discussion to a close, said the whole matter is up to the clergy, who, if they are willing, can have members of their congregations subscribe the required amount.

After luncheon at the parish house the business meeting was opened and Dr. Ward of St. Peter's church, presided. After routine business was transacted it was decided to invite members of the clergy to attend the next meeting of the convocation to be held at Trinity church the latter part of January. The date has not yet been fixed.

At the conclusion of the business meeting the Rev. E. M. Paddock of Emanuel church, Allegheny, read a paper on "The Ethical Value of the old Testament." The Rev. C. A. Bragdon, S. T. D., of Homestead, opened the discussion in which many others took part. The important discussion of the session was opened by Attorney George W. Guthrie, chancellor of the local diocese, his subject being "The Condition and Amendment of the Ecclesiastical Corporation Laws in the Commonwealth of Pennsylvania." Attorney A. M. Imbrie also talked on the subject.

It seems that many church charters granted in this state since 1855 have certain defects, which invalidate their title to property, and Attorney Guthrie urged, in view of the fact that the last legislature passed a bill by which all church charters are made valid for two years, those having defective charters should take advantage of the opportunity to have them altered to conform to the laws of the state. Mr. Guthrie said that by the act of 1855 the control and disposition of church property was vested in the laymen. He reviewed the history of church corporations, showing the difference between the old english system and the system in use in this country. By the latter laymen are made members of the corporation and exercise authority in the control of property belonging to the church. Attorney Imbrie said the trouble about church charters was brought about by the tendency to unite the ecclesiastical with the civil laws, whereas they are entirely distinct.

CARNEGIE ART JURY DOES WORK RAPIDLY

Selection of Pictures for Annual Exhibition to Be Completed Tomorrow.

"Ah!"

It sounded like a chorus of "ayes" when everybody votes for unanimous adjournment at the close of a tedious meeting. Nobody spoke with very much enthusiasm, but each individual expression was quite audible enough to be heard.

This was what happened at the Carnegie art galleries about two score of times yesterday afternoon. It meant that some painting which had come up before the international art jury had been relegated to be packed up and shipped home. It was the expression that greeted works of art that would cause the delight and admiration in thousands of homes—but somewhere in those mysterious elements of art called light, shade, tone, action, atmosphere or impression, the picture was lacking. And back to the packing room it went.

This year's jury is beating all records for rapid decisions. There are about 600 pictures to examine and nearly half of these were considered yesterday. The jurors took a recess at 5 o'clock and after dinner at the Hotel Schenley, spent the evening visiting the Edgar Thomson steel works. They will resume their task in the galleries this morning and tonight will be the guests of the fine arts committee of the Carnegie Institute at dinner at the Schenley. Tomorrow the work will be finished. About 300 canvases will be selected for the walls. Three pictures will be rewarded prizes of $1,500, $1,000 and $500 respectively. Alfred East of London expects to remain here for Founders' day.

PENROSE WILL SPEAK AT PHILADELPHIA MEETING

The Senator Will Be Prepared to Make an Authoritative Statement of Republican State Policies.

[By Private Wire to The Gazette.]

PHILADELPHIA, Oct. 12.—Senator Penrose will be one of the speakers at the opening of the Republican campaign at the Academy of Music October 18. This was today authoritatively announced. As the head of the state organization Senator Penrose will be able to speak with authority as to the intentions of the Republican leaders. He is in a position to forecast the probability of legislation demanded by the people.

Col. James M. Guffey spent an hour at Democratic state headquarters, leaving for Pittsburgh shortly after noon.

The formal notification of the City party candidates took place at the Academy of Music tonight. Conspicuous in a box was Mayor Weaver. After the candidates had given their acceptances of nomination the mayor spoke from his box. He said he stood on the platform of the City party and wished success to its ticket. Less than 400 persons took part in the parade preceding the meeting, and the police escort nearly equaled in numbers the marchers.

CHESTER D. POTTER.

Odor of Ham and Eggs Brings Speech Back to Mute

Of two prisoners who were locked up in the Wilmerding jail yesterday morning, one, arrested the evening before as a suspicious person, giving his name as Joseph Hervey and professing to be deaf and dumb, received no breakfast, while the other, in an adjoining cell, had ham and eggs. Shortly afterward Chief of Police H. F. Davenport asked the man who had breakfasted how the ham and eggs were. "Fine," was the answer, with a smack of the lips. Without saying anything to Hervey, the chief started to leave the jail, when the supposed deaf mute yelled, "Don't I get anything to eat?" Burgess Pounds fined him $5 and costs, which he paid. The burgess then gave him five minutes in which to leave town.

LIVELY WORK ON THE GRIDIRONS

Wup's Prepare to Meet the California Giants Tomorrow Afternoon in Hot Game.

EASTERN COLLEGES ARE BUSY

The invigorating touch of football weather yesterday afternoon was responsible for a racy practice at Exposition park. The candidates showed lots of steam and the pace was hot. Ritchie and Bolsseau alternated at quarter on the varsity, and in response to Mosse's orders to make it fast kept the team on the dead run during almost two hours of signal drill. The satisfaction of the coach with the great improvement in team work during the past few days was evidenced by the fact that several more intricate plays were put into operation for the first time this fall.

The surprise of the day was the reappearance in the varsity line-up of Marshall and Edgar, the big lineamen whose absence, on account of sickness, had been seriously felt. There was no scrimmage work, but the coach gave the candidates 15 minutes of association football immediately following signal practice.

Beginning with last Wednesday the dressing rooms of the Pittsburgh baseball club were placed at the disposal of the W. U. P. squad. This arrangement simplifies matters a great deal, as the walk to Phipps' gymnasium in damp clothes was a very disagreeable feature following daily practice. In addition to the regular playing field, a regulation gridiron has been lined off in left and center fields in order to save the diamond from the wear and tear of scrimmage practice.

Interest is now centering in the game with the strongly reinforced California team, which will make its appearance here tomorrow afternoon. It is understood by the W. U. P. authorities that the Californias are making extensive preparations, but the stronger they make their team the better satisfied will be the local collegians.

Princeton.

PRINCETON, N. J., Oct. 12.—(Special.)—Due probably to a vigorous curtain lecture from the coaches, as well as from natural humiliation from the result of yesterday's game, the Tigers bolstered up their work this afternoon into something like its old shape, and though the inconsistent work they have done so far leaves it a matter of debate of how enduring the change may be, this afternoon's performance was, on the whole, very creditable. There were a good many changes in the lineup, owing to the fact that several men were on the sick list. Dillon was back in the game. His shoulder has been making trouble and Waller has been temporarily taking his place. It is said that Moscrip has water on the knee. P. Waller played at center in place of Carothers, who has a bruised knee and will keep Dutcher company for a while in consequence. Tooker and O'Brien played a good end game, and Tooker, in particular, made good in capital style. His defense was good and he got down the field with great speed and always capped the run with effectual tackling. In spite of the several improvements in the general work, however, the defense was often lamentably weak, and the scrub gained through the line oftener than there was any excuse for.

Yale.

NEW HAVEN, CONN., Oct. 12.—(Special.)—It may be only a coincidence, but those who follow daily the drift of Yale's football squad think they have noticed a tendency to eliminate the surplus roughness in play since last Monday's conference of the "Big Three's" coaches with President Roosevelt. Yale's players have never been intentionally scrappy among themselves, but Tuesday and again today they were so unnecessarily anxious to be gentlemanly, though really dangerous as football warriors, that one coach remarked: "That rush line opened up holes big enough to drive a coach and four through, but the half back seemed to use less force than usual in their attacks." The varsity and college elevens played a 10-minutes scrimmage with but one resultant touchdown for the varsity. The features of the work were shelving run with a cabbage punt and Wilfley's end runs. Jones was at quarter for the varsity and showed the value of his recent experience in games. Much time was spent upon the ends and tackles in running down under punts after scrimmaging ceased. Other players were placed down field to block off the runners from the catching backs. The tackles generally were neck and neck with the ends in the running. Yale has a remarkably speedy, if not overheavy, aggregation of linemen.

Harvard.

CAMBRIDGE, MASS., Oct. 12.—(Special.)—Scotty McMaster's tackling dummy, rigged up on the Soldiers' field practice gridiron, kicked this afternoon at the abusive treatment handed out by Coach Reid's warriors and retaliated by breaking the collarbone of Clarke Montgomery Cavanen, a second-year law school man, and one of the leading candidates for a tackle berth on the varsity eleven. It was the first time the dummy has injured a player since it was rigged seven years ago. Two old varsity men joined the squad this afternoon, Don Nichols and Henry Whitman, the tennis crack. Nichols reported earlier in the season, but had to retire on account of a bruised shoulder. Another examination recently demonstrated that he could play again without fear of permanent injury. Whitman was a substitute end last fall and played in both the Penn and Yale games. Davey, the big tackle on the second team last fall, who broke an arm shortly before the Yale game, was out for light practice, and Pierce, Squires, Guild and Hanley also left the hospital squad and did some limbering up. In the scrimmage work the second teams registered another victory over the varsity by scoring a touchdown on a blocked kick.

U. of P.

PHILADELPHIA, Oct. 12.—(Special.)—The University of Pennsylvania football situation, which has been going from bad to worse, has reached a stage where the coaches are puzzled to know which way to turn. The latest piece of misfortune arrived today when A. H. Ziegler, the big right guard, was removed to the university hospital, where he is threatened with typhoid fever. Ziegler, if lost to the team, this situation may become a hopeless one.

Counting the four varsity men who were lost last June by graduation, Penn has been deprived of nine varsity men.

Four Left in the Woman's Tournament.

NEW YORK, Oct. 12.—Out of the 66 starters in the woman's national championship golf tournament, which began last Monday at the Morris County club's links at Convent Station, N. J., only four survived at the end of today's play. These are Miss Georgianna Bishop, the present champion, who is entered from Bridgeport, Conn.; Miss Margaret Curtis, Essex county, Mass.; Miss Keyes, Concord, Mass., and Miss Pauline Mackay, Oakley, Mass.

Popular Annual Local Rifle Shoot.

The fifteenth annual tournament of the Iroquois rifle club of the North Side will be held on October 24, 25, 26 and 27, at its indoor range. There will be the usual watch for members only on the first day. On the second, third and fourth days, the all-comers and the bull's eye matches, open to all, will be shot. These shoots are the popular events of the year among rifle shots and not a man who loves to handle the weapon will be missing.

PIRATES MAKE A HIT AT STEUBENVILLE

STEUBENVILLE, O., Oct. 12.—The Pittsburgh Pirates were given an enthusiastic reception in their game with Steubenville this afternoon at Exposition park today. It was an unusually large field last night it rained very hard, but every man being in the pink of condition for the game at Washington tomorrow. Thanin, the old W. and J. end, will line up against his former team for the first time. Coach Bird had the most practice a new man last night and after about 15 trials the players went through with it like clockwork. This play will be used in the game against W. and J. The only two changes in the line-up against W. and J. from last year's game, when Lowman was in a game of 0 to 6, are Tranter in McAteer's place at quarter, and Edwards in Rommel's place at tackle. Damon, however, will probably be in the game in the second half. The Lyceum team was line up as follows: Left end, McManes; left tackle, Edwards; left guard, Smith; center, Elkins; right guard, Kerns; right tackle, Sweeney; right end, Shilvespar; quarter, Tanner; left half, Quinlan; right half, McInerney; full, Brassel.

The Giants need two more victories to win the world's championship.

The Giants and Athletics will play at New York today and tomorrow.

The Boston Nationals certainly got their lumps good and hard yesterday. Poor all-around playing was the cause.

Dan McGann was the boss hitter for the Giants yesterday. He made three hits, including the only Big swat of the game.

The barnstormers of the Pittsburgh team will play a return game at Steubenville on Wednesday. Next Monday they will tackle the All-Stars at Homestead.

R. F. M., Pittsburgh—John McGraw left the Baltimore American league team in the middle of the season of 1902 to join the New York National league team, with McGinnity, Cronin, Ireseahan and McGann.

A dispatch from St. Louis says: "Hank O'Day, the veteran umpire of the National league, will manage the St. Louis Cardinals next year. The contract will be signed within the next few days, or as soon as his engagement as one of Mr. Pulliam's arbiters is at an end."

LYCEUM WILL SPRING NEW PLAY ON THE W. & J. TEAM

There is trouble ahead for the W. and J. eleven, if the opinions of Coach Bird and Manager O'Donnell of the Lyceums count for anything. At practice on the Pittsburgh Field last night 25 men were out, every man being in the pink of condition for the game at Washington tomorrow. Thanin, the old W. and J. end, will line up against his former team for the first time. Coach Bird had the most practice a new man last night and after about 15 trials the players went through with it like clockwork. This play will be used in the game against W. and J. GIANTS AGAIN TAKE THE LEAD

Shut Out the Athletics, Not One of Whom Gets to Second Base.

MATHEWSON IS THE WIZARD

[By Associated Press to The Gazette.]

PHILADELPHIA, Oct. 12.—It was all New York today in the third game for the baseball championship of the world between the National league champions and the American league pennant winners, the visitors scoring nine runs, while the home team failed to tally. The series now stands 2 to 1 in favor of New York.

Mathewson pitched another magnificent game, the Philadelphians hitting him for only four singles, the same number of hits they made off him on Monday. Only one home player reached second base. Coakley, the former Holy Cross college pitcher, received poor support, the American leaguers putting up one of the worst exhibitions of fielding they have been guilty of this year on the home grounds. Murphy was the chief offender. He fumbled three grounders at critical moments and Hartsel dropped a fly ball. The usual good headwork of the home players was missing. New York played an easy game.

New York started off with a rush in the first inning. Bresnahan was hit by the third pitched ball. Browne fouled out to L. Cross, who held Bresnahan on first. Donlin singled, Bresnahan going to third. McGann also singled, on which Donlin moved to third, while Bresnahan scored the first run. Then Murphy fumbled Mertes' grounder, on which Donlin scored. Dahlen waited for four balls, filling the bases. Devlin chopped a grounder to Coakley, who threw McGann out at the plate, and Schreck made a quick throw to first, heading off Devlin, completing a double play.

Excepting a muff by Hartsel of McGann's fly in the third inning, the New Yorks went out in order in the second, third and fourth innings.

The fifth inning was a distressing affair for the home rooters. Mathewson went out on an easy grounder to M. Cross. Bresnahan was given a base on balls. Murphy fumbled Browne's grounder, Bresnahan going to third. Browne took second on the throw to catch Bresnahan at third. Donlin was purposely given four balls, filling the bases. Then Murphy fumbled McGann's easy grounder, Bresnahan scoring. A single by Mertes to right sent Browne home, Dahlen forced Mertes at second, on which play Donlin scored, and a moment later Dahlen stole second while Coakley held the ball. McGann scored the fourth run of the inning on Devlin's single, Dahlen going to third. The Philadelphians' signals went wrong, as Devlin stole second and Dahlen slid across the plate with the fifth run. Gilbert, the ninth man up in the inning, sent a fly to Lord.

Powers relieved Schreck behind the bat in the sixth inning, and in the seventh he threw two men out who tried to steal second. Not a New Yorker got to second base after the fifth inning until the ninth, when, with two out, Browne singled and stole second. Donlin got a base on balls and both runners worked a double steal. Powers made a good throw to L. Cross, who dropped the ball, and Browne was safe. McGann sent both men home with a two-base hit, and a moment later the New York captain was caught napping at second by a fine throw by Powers.

Of the 27 men who faced Mathewson, nine reached first. Hartsel, the first man up in the first inning, was safe on Devlin's fumble of his grounder. He stole second and was caught between the bases on Davis' fielder's choice. Seybold got to first in the second on Mathewson's only base on balls and was forced out. In the fifth M. Cross singled and was left at first. In the seventh Davis singled and was thrown out going to second after a foul fly had been captured. Seybold singled in the same inning and never got away from first base. In the eighth Coakley was hit by a pitched ball, after two were out, and the man who followed him was an easy victim. With two out in the ninth, Captain L. Cross singled and Seybold ended the game by striking out.

The day was cold and raw for baseball. The receipts were officially announced at $8,348, and the players' share at $4,507. The total attendance for the three games is 38,332 and the total receipts $40,072.

The game by innings is as follows:

Devlin hit to Coakley, who threw McGann out at the plate. Schreck threw to Davis to head off Devlin, completing a double play. Two runs.

Philadelphia—Devlin fumbled Hartsel's grounder and Hartsel stole second. Lord fanned trying to bunt. Davis hit to Mathewson and Hartsel was caught by Dahlen between the bases. McGann retired L. Cross, unassisted. No runs.

Seventh inning, New York—Donlin out, Murphy to Davis. McGann reached first on a scratch hit. McGann out trying to steal second, Powers to M. Cross. Mertes walked and was thrown out trying to steal, Powers to Murphy. No runs.

PAT T. FOURTH AT LEXINGTON

Pittsburgh Horse Unable to Better His Position in the 2:18 Trotting Class.

SLOW TRACK ALL MORNING

[By Associated Press to The Gazette.]

LEXINGTON, KY., Oct. 12.—A card of seven races and one unfinish event attracted a large crowd to the Kentucky Trotting Horse Breeders' association meeting, which two rainy days had interrupted. The track was slow in the forenoon, but before the day was over it was normal. Ed Custer and Texas Rooker were defeated favorites, Silflite and Steen, the winners of the events, being strong second choices. Pat T., the Pittsburgh horse, could do no better than take third money in the 2:18 trot, although he had many supporters. John N. was not in the money. Summaries:

The Clothes of Gentility

Poor Clothes rob a man of business and social courage. In either atmosphere he feels—and ought to feel—ridiculous. Good Clothes give him the bravery of his self-confidence, which of course inspires respect and confidence in others. Don't try to argue around this important fact. Select your Clothes with care—select those that are unmistakably the habit of a gentleman—and don't mortgage your pride with attire that will not at once proclaim its character. This will lead you to Atterbury Clothes, which never fail to act well their part at any hour of business or social obligation.

THE CLUBS

Contributions to this department must bear the name and address of the writer to insure attention.

Inquiry Into Industrial Conditions.

That congress be petitioned by the women's clubs of the United States to authorize a national investigation into the conditions which surround the employment of women, is the end for which the industrial committee of the Illinois Federation of Women's clubs is aiming. That the petition will be made in a few months is confidently expected. The question will be brought up at the annual convention of the Illinois federation at Joliet next week, and, if it receives the support of the federation, which is expected, circular letters will be sent to every woman's club in the country asking them to use their influence to have a bill passed at the next session of congress making an appropriation for such an investigation, to be conducted through one of the bureaus and by people trained for that work. In some states the women's clubs are now organized in the congressional districts, thus facilitating the scheme of work outlined by the industrial committee of the Illinois federation. This movement was started some months ago by Miss Mary McDowell, the president of the Woman's Trade Union league of Illinois. It was taken before the National Woman's Trade Union league and a committee, consisting of Miss McDowell, Miss Jane Addams of Hull house and Miss Lillian Wald of the Nurses' settlement of New York, was appointed to see President Roosevelt, and, if possible, secure his support in behalf of the movement proposed. It is claimed that Mr. Roosevelt promised his support. No systematic study of the actual conditions of women in industry has ever been made, and it is looming into an important question at present. Various evils, including divorce, race suicide and other social troubles, are often claimed to be direct results of women in industrialism. The actual facts are not known, because the question is too large for any individual to undertake, and only an investigation of national scope and power, it is claimed, could secure the real facts.

Listen to Description of Japan.

The members of the Thursday Afternoon club of Wilkinsburg were fascinated by the graphic descriptions and stories of Japan and the Japanese told to them yesterday by Mrs. Alfred E. Clarke and Mrs. Henry J. Bailey. The club met in the Pennwood club rooms, the social committee acting as hostesses, and, being the first meeting of the season, it partook of social features, as well as a literary and musical program. The guests were received by the retiring president, Miss Jean Hunter, and the new officers, Miss Mary Goldie, president; Mrs. Walter M. Shockley and Mrs. R. W. Alison, vice presidents; Miss Margaret Stuart, recording secretary; Miss Genevieve D. Hasson, corresponding secretary, and Miss Emma B. McCracken, treasurer. Miss Hunter introduced the new president and Miss Goldie responded with a short address. There was music, under the direction of Mrs. R. Sloan, followed by the interesting talks on travel by Mrs. Clarke and Mrs. Bailey.

Mrs. Bailey spoke particularly of the character and appearance of Japan and their visits from one place to another, while Mrs. Clarke contributed the story of the manners and customs of the Japanese people, the patriotism of the men, the simplicity and charm of the women and the quaintness of the children in their play and in their sturdy imitation of the older people. During a brief business session Mrs. Franklin M. Gordan was formally elected a delegate from the club to the meeting of the state federation in Cambridge Springs next week. Refreshments were then served by the social committee, composed of Miss Josepha Hamilton, Mrs. F. P. Livingston, Mrs. Curtis A. Graham, Miss Ruth Baldwin and Mrs. Charles Keller.

Indiana Federation in Session.

The Indiana Federation of Women's clubs has been holding its sixth annual convention this week, opening on Wednesday. Among the subjects brought before the club women was a recommendation from the board of directors that steps be taken to prevent girls from doing night work in Indiana factories, especially in those where glass in manufactured. A possible solution of the domestic service probem was proposed in the lending of assistance to the domestic science schools in Anderson and Lafayette, and establishing similar schools in other places. It was suggested that the encouragement of education and art work might be given by placing copies of the best pictures in schools and libraries. Mrs. Sarah Platt Decker, president of the General Federation of Women's clubs, addressed the federation on Thursday evening. The Indiana federation has now 62 clubs, an increase in membership of 20 since last year.

Missionary Tea.

The Woman's Missionary society of the Sixth Presbyterian church, Forbes street and Murray avenue, will give a tea in the lecture room Wednesday, October 18, from 3 to 6 o'clock. Every effort will be made to insure an enjoyable afternoon. Songs will be sung by Mrs. Agnes Vogel Roberts, soprano of the Bellefield church; Miss Grace Petty, contralto, North Presbyterian church; Mrs. Vida McCullough McClure, soprano; Fred Cutter, baritone of Christ church, and Miss Annie Flower at the piano. Miss Cecilia Fordham Farmer of Hazelwood will give several readings.

Receive Miniature Diplomas.

Mrs. Edwin S. Gray entertained the graduates of the teachers' training class connected with the Sunday school of the Second Presbyterian church at her home, Maryland avenue, last evening, at dinner. Miss Grace Gibson Swan was guest of honor. The place cards were miniature diplomas on which were pertinent questions of an amusing nature bearing on the class work, which had to be answered before one could leave the dinner table.

PRESIDENT'S COUSIN MARRIES MISS LANGE

CHICAGO, Ill., Oct. 12.—(Special.)—Andre Roosevelt, cousin of President Roosevelt, was married at 6 o'clock tonight at the home of Dr. J. Hollinger, 1629 Sheridan road, to Miss Adelaide Lange. The marriage was informal because of the illness of Miss Lange's mother. Judge Theodore Brentano performed the ceremony. The young couple will go to Washington and other eastern points for the honeymoon. They will reside in St. Louis.

RUNAWAY CAR CAUSES INJURY TO THREE MEN

In Flight Collides With and Smashes Three Wagons and Hurts Two Horses.

Three men and two horses were injured and two wagons were wrecked by a runaway street car yesterday afternoon, at Greenfield avenue. The injured are:

JACOB YOUNG, driver for Daniel McDonald, taken to Mercy hospital.

PESACH MELINCK, 822 Isabelle street, Homestead, bruised and shaken up; able to go home.

OSCAR GRATZ, 1324 Howard street, Allegheny, driver for Henry Lohrey, bruised and cut on the head; went home.

The accident happened about 2:45 o'clock. As a McKeesport car, city bound, was nearing Greenfield avenue the car became unmanageable and crashed into the rear of the wagon driven by Young. The wagon was almost demolished, and Young was thrown from his seat to the pavement, the wrecked wagon falling upon him. He was picked up unconscious.

After striking Young's wagon the car collided with Melnick's wagon, crowding it upon the horses, one of which was severely cut.

The team driven by Gratz was crossing the tracks when struck. Gratz was thrown off and was badly bruised, and had a slight cut on the head.

THE DELINEATOR for November Out To-day

¶ The Keynote of the new and greater Delineator for November is Novelty.

¶ In its Fashions the new order of things is evidenced on every page; in its illustrations of the present and coming Styles, Novelty of treatment lends much to the temptations of the modes themselves. 64 pages of the New Things from Paris, from New York, from wherever can be gathered the season's newest and best creations.

¶ Speaking in pages may not mean much to you. A better way to realize the bigness of the November Delineator is to know that it contains more pages devoted to fashions and dress topics than any two other magazines.

¶ Helen Berkeley-Loyd and M. Edouard La Fontaine, writing exclusively for this magazine, contribute papers this month that every woman in the land will wish to read—the real news of woman's dress; the final word of authority on what is to be during the coming months, which is awaited with eagerness each season by every woman who cares for her appearance.

¶ Then the color printing—a feature that is practically exclusive with The Delineator—for while one or two other publications print a few pages with an added color, this number contains 21 pages in color in addition to the regular full-color plates of fashions.

¶ The Delineator has always given the most in quality and in quantity for its subscription price—it is now giving more—much more—than ever before.

¶ Practically everything in this number is new—excepting its good old name. Besides the Fashions and the Household Departments, which have made The Delineator famous; besides its Children's Magazine, which is beyond comparison; besides its many special articles of helpfulness and interest, one great feature deserves the attention of every thinking woman and man:

¶ It is nearly two years now since The Delineator began its investigation of the Pure Food Question—the most thorough searching for facts, the most careful analysis of products ever conducted. Supplementing the work of the Government's experts, The Delineator has gone much further by establishing its own board of examiners and specialists who are investigating the different value of food products and beverages, their chemical analysis and correct or fictitious labeling.

¶ The results obtained by this department or laboratory enable the housekeeper to quickly and accurately decide for herself what is safe and wholesome food for daily home consumption.

¶ Readers of The Delineator have been regularly supplied with timely and most interesting articles on the subject. Among these is the series now running in each issue, entitled "Safe Foods and How to Get Them," written by that well-known authority, Mary Hinman Abel. In the November number the author treats of "Official Milk Inspection." The article is well illustrated by pictures and diagrams. If you want to know how a billion gallons of milk are treated annually in this country, Mrs. Abel's article will inform you.

¶ These specially prepared articles are to be a regular feature of The Delineator, and will contain, in part, some of the results of the investigations now carried on by the business department.

¶ That The Delineator has become an authority on the Food Question, all the world knows. No better evidence of this could be found than in the fact that it is frequently and favorably quoted. This, then, is another evidence—were one needed—of the great value of The Delineator to the American housekeeper, not only in the protection of her health, but to her material comfort as well.

SADLE DID NOT FIRE WAREHOUSE

Stopped to Investigate Burning Paper When Watchman Pounced Upon Him.

SCOTT GUILTY OF FORGERY

No evidence was produced to show that Charles Sadle, accused of setting fire to the warehouse of the United Storage Company in River avenue, Allegheny, last September, was guilty of the crime, and he was acquitted by a jury in criminal court, where he was tried on a charge of arson. Sadle was arrested by a watchman at the storage warehouse while standing near a barrel of burning paper, which had evidently been set on fire. He was arrested after a fight, but denied all knowledge of the attempt to burn the building. The only direct evidence against Sadle was that of the watchman who arrested him.

Sadle, in his own behalf, stated that he was walking near the storage warehouse on his way to his boarding house, when he saw the smoke from the burning paper and stopped to investigate. While making this investigation the watchman pounced upon him and started to beat him.

David S. Scott pleaded guilty to three indictments of forgery and two of false pretense. He was remanded for sentence. Scott was charged with forging his wife's name to deeds for property in the East End and securing several thousand dollars from different persons by falsely representing that the signature was genuine.

Ben Richards, a negro, entered a plea of guilty to a charge of burglarizing the residence of D. Somerman, 1541 Center avenue, and was sentenced to six months to the workhouse.

Julius Gross was acquitted on a charge of larceny made by Samuel Paner of 43 Federal street.

Other cases were: J. S. Bynes, felonious assault, three months to the workhouse; Fred Wright, Sr., felonious assault, three months to the workhouse; James McGonigle, assault and battery, one day to the workhouse; James McClaren, larceny, six months to the workhouse; Andrew Washington, larceny, acquitted; Paul Ballent, felonious assault, 60 days to the workhouse; Boston Anderson, malicious mischief, 44 days to the workhouse; John Matzic, felonious assault, acquitted on the grounds of insanity.

Margaret Elder, in her suit in equity against Hulda Cramer, alleges that she agreed to buy the Hotel Midland property at Broad street and Collins avenue, subject to certain mortgages. The plaintiff conveyed to Mrs. Cramer a lot in the Twenty-second ward in payment, but alleges that in addition to the mortgages there were other claims against the Cramer property, and the deal was called off. The plaintiff seeks a reconveyance of the Twenty-second ward property and asks for an injunction to restrain Mrs. Cramer from disposing of the lot.

Orders were made by the court continuing the preliminary injunctions in the cases of Mary Dodds against the Pittsburgh Harness Supply Company and the Hoag Company, and in the case of the Griswold Shoe Company against Abraham Simon and Jennie Pearlstein, to restrain them from using the words "Carter's Shoes," or "Captain Carter's footform shoe."

The following verdicts were rendered for the plaintiffs: A. J. Rodgers against W. H. Hall Company, $423 45; G. A. Jennings against E. Frank Vetter, $200; Mathilda G. MacConnell against William Mofferdy, with notice to James McHeck or McNeil, terre tenant, $2,822 20; Alexander Ferguson against the Pittsburgh Railways Company, $3 298.

William Woodruff Phillips, a farmer of Elk Creek township, Erie county, Pa., filed a petition in voluntary bankruptcy. He places his liabilities at $6,348 50, and his assets at $5,-000 50. Albert E. Poole, a grocer of Pittsburgh, also filed a petition in bankruptcy, placing his liabilities at $1,741 68, and his assets at $6,232 54. Among his assets is a piece of property valued at $5,000.

The first and partial account of W. J. Brennen and Juliet R. Fleming, executors of the estate of George S. Fleming, has been filed. They charge themselves with $15,000 in personal items being for funeral expenses, interest on the property at Bouquet street and Craft avenue, and various expenses connected with the care and keep of three race horses. The balance for distribution is $213,105 57.

In the six months ending September 30, there were 150 petitions in bankruptcy filed in the United States court, 101 being voluntary. There were 161 persons or firms adjudged bankrupts, 120 discharged from their debts, six petitions in involuntary bankruptcy dismissed and seven compositions confirmed. In the previous six months 201 petitions were filed.

Executions issued: W. R. Haney against J. K. Fisher, $1,212 14; M. Simons & Sons against A. Thompson Company, $520 63; Pittsburgh Brewing Company against Joseph S. Michalsky, $2,200.

Bringing in Other Jurists.

Owing to the large amount of business in criminal court and the pressure in the common pleas court, which prevents the detail of additional Allegheny county judges to the quarter sessions work, arrangements have been made to bring Judge R. E. Dimbel of Fayette county and Judge W. D. Patton of Armstrong county here to assist in the criminal court.

Appeal in Webster Avenue Widening.

The Rev. Harmar Denny, Amelia M. Brereton, Elizabeth F. D. Whitney, Vincent de Luca and Michael Sassa, who were awarded damages by the board of viewers in the widening of Webster avenue, yesterday, appealed from the awards and asked for a jury trial.

Cecilia Loftus Next Week.

To see Cecilia Loftus at the Grand opera house next week is almost equivalent to viewing an all-star cast. In the Loftus repertoire the artistic mimic includes Sara Bernhardt, Mrs. Patrick Campbell, Ethel Barrymore, Edna May, Yvette Guilbert, Andrew Mack, Chauncey Olcott, Harry Lauder, Julius Stager, May Irwin, Fay Templeton, Ada Rehan, Josephine Sabel, Marie Dressler, Marie Tempest, Hattie Williams and Letty Lind. At every performance she draws upon this repertoire and varies her imitations.

The Delineator for November.

With its introduction of color through the fashion and advertising sections, the November Delineator presents a most attractive appearance. The Autumn fashions have a large place in the number, being illustrated and described in detail and interpreted by such authorities of dress as Helen Berkeley-Lloyd and Edouard La Fontaine.

The table of contents contains, among its many features of interest, an article, the second of two, by Dr. William H. Maxwell, Superintendent of Schools, New York City, on "Education for Life through Living." As Dr. Maxwell says, "The public schools of today are doing what they can to enable the children to become better home-makers and greater home-lovers, to be stronger in body and more ready in application of mind, to problems both of the hand and head and to discover in themselves new aptitudes and gain new modes of self-expression without which, for want of verbal skill, they would be forever dumb." Just what methods they use are set forth with a great deal of interest in this article.

"The campaign for pure foods which the magazine instituted some months ago is carried on in this number with an investigation of official milk inspection. Mrs. Abel asserts that sanitary inspection is a farce, and makes a strong plea for rigid enforcement of the law.

"A Run in Ireland" is a delightful travel sketch by Seumas MacManus, the well-known Irish author. N. Hudson Moore writes of "Tables and Sideboards" in "The Collector's Manual," and "The Child's Dress" is the subject of Dr. Grace Peckham Murray's paper. "The Romance of a Gospel Singer" is a timely contribution, describing some interesting events in the life of Charles M. Alexander, the revivalist. The Lucky-Piece, Albert Bleelow Paine's novel, which has been running in the magazine, is brought to an end in this number, and "At Sinister Farm," by Helen M. Winslow, is continued. A delightful story of boy life, "The Exultation of William Henry," is from the pen of Herminie Templeton. There is a great deal of interest and value to housewives in the departments, and for the little folks, stories and pastimes, including a chapter Mrs. Jackson's story for girls, "Sunlight and Shadow."

WOMEN WHO SUFFER

HAVE NEGLECTED TO TRY DR. WILLIAMS' PINK PILLS.

The One Remedy Particularly Suited for the Most Common Feminine Ills.

To women who suffer Dr. Williams' Pink Pills are worth their weight in gold. At special periods a woman needs medicine to regulate her blood-supply or her life will be a round of pain and suffering. Dr. Williams' Pink Pills are absolutely the finest medicine that ever a woman took. They actually make new blood. They are good for men, too—but they are good in a special way for women.

"It was three years ago last spring that my health failed me," says Mrs. Arthur Conklin of No. 5 Coldwater street, Battle Creek, Mich. "I suffered from leucorrhoea and other troubles that, I presume, were caused by the weakness it produced. I had sinking spells, nervous headaches, was weak and exhausted all the time and looked like a walking skeleton.

"My back and limbs would ache almost continually and there were days when I was absolutely helpless from sick headache. I tried one doctor after another, but cannot say that they helped me at all. My liver was sluggish and I was troubled some with constipation.

"One day a physician, who has now retired from practice, met my husband on the street and inquired about my health. He advised my husband to get some of Dr. Williams' Pink Pills for me, said they were a good medicine, better for my trouble than he could put up. I took six boxes and was entirely cured. As soon as the leucorrhoea was cured the headaches and other pains stopped. I am entirely well now, but I intend to continue to use Dr. Williams' Pink Pills as a spring tonic."

Mrs. Conklin permits the publication of her statement in the hope and belief that it will help suffering women to find the remedy that will cure them. And she is right. Dr. Williams' Pink Pills are the greatest cure there is for the common ailments of men and women—for the weakness and backaches of Anaemia, the heaviness and distress of Indigestion, the pains and aches of Rheumatism, Sciatica and Neuralgia; the misery of Spinal Weakness and the ill-health that follows any disturbance of regularity in the blood-supply. All these ailments are caused by bad blood, and Dr. Williams' Pink Pills actually make new blood. They don't act on the bowels. They don't bother with mere symptoms. They strike straight at the common root of disease. But, of course, you must get the genuine pills. Substitutes and imitations never cured anybody. The genuine Dr. Williams' Pink Pills are sold by all druggists, or by the Dr. Williams Medicine Co., Schenectady, N. Y.

Have You a Friend?

Then tell him about Ayer's Cherry Pectoral. Tell him how it cured your hard cough. Tell him why you always keep it on hand. Tell him to ask his doctor about it. Doctors know it. They use it a great deal for all forms of throat and lung troubles.

"I had an awful cough for over a year, and nothing seemed to do me any good. I tried Ayer's Cherry Pectoral and was soon cured. I recommend it to all my friends whenever they have a cough."—MISS M. MEYERS, Washington, D. C.

We have no secrets! We publish the formulas of all our medicines. J. C. Ayer Co., Lowell, Mass.

THE ROOT OF THE MATTER

He Cured Himself of Serious Stomach Troubles, by Getting Down to First Principles.

A man of large affairs in one of our prominent eastern cities by too close attention to business, too little exercise and too many club dinners, finally began to pay nature's tax, levied in the form of chronic stomach trouble; the failure of his digestion brought about a nervous irritability making it impossible to apply himself to his daily business and finally deranging the kidneys and heart.

In his own words he says: "I consulted one physician after another and each one seemed to understand my case, but all the same they each failed to bring about the return of my former digestion, appetite and vigor. For two years I went from pillar to post, from one sanitarium to another. I gave up smoking, I quit coffee and even renounced my daily glass or two of beer, without any marked improvement.

"Friends had often advised me to try a well known proprietary medicine, Stuart's Dyspepsia Tablets and I had often perused the newspaper advertisements of the remedy but never took any stock in advertised medicines nor could believe a fifty-cent patent medicine would touch my case.

"To make a long story short I finally bought a couple of packages at the nearest drug store and took two or three tablets after each meal and occasionally a tablet between meals, when I felt any feeling of nausea or discomfort.

"I was surprised at the end of the first week to note a marked improvement in my appetite and general health and before the two packages were gone I was certain that Stuart's Dyspepsia Tablets was going to cure completely and they did not disappoint me. I can eat and sleep and enjoy my coffee and cigar and no one would suppose I had ever known the horrors of dyspepsia.

"Out of friendly curiosity I wrote to the proprietors of the remedy asking for information as to what the tablets contained and they replied that the principal ingredients were aseptic pepsin (government test), malt diastase and other natural digestives, which digest food regardless of the condition of the stomach."

The root of the matter is this, the digestive elements contained in Stuart's Dyspepsia Tablets will digest the food, give the overworked stomach a chance to recuperate and the nerves and whole system to receive the nourishment which can only come from food. Stimulants and nerve tonics never give real strength, they give fictitious strength, invariably followed by reaction. Every drop of blood, every nerve and tissue is manufactured from our daily food, and if you can insure its prompt action and complete digestion by the regular use of so good and wholesome a remedy as Stuart's Dyspepsia Tablets, you will have no need of nerve tonics and sanitariums.

Although Stuart's Dyspepsia Tablets have been in the market only a few years, probably every druggist in the United States, Canada and Great Britain now sells them and considers them the most popular and successful of any preparation for stomach trouble.

VERY SMALL NET CHANGES IN NEW YORK STOCKS

Gains and Losses Equally Distributed, and the Market Closed Steady—Call Loans Firm—Local Securities Closed Higher.

By JOHN O. BAGLIN, Financial Editor.

The net changes in prices at the close of the New York stock market yesterday were smaller than at any time in weeks. In but two or three instances were the changes more than fractional, and stocks like United States Steel common and preferred, Atchison and Northern Pacific closed absolutely unchanged. There was also a considerable falling off in the dealings, and during the afternoon the market was extremely dull but steady.

London sent lower quotations, and private advices stated that that market was influenced by the Wall street view of the Vanderlip address before the bankers' convention. Later in the day, however, London was quite a buyer of Union Pacific and United States Steel, and the favorable report of the Bank of England produced a better feeling abroad regarding the money market.

During the morning session there was some liquidation and prices averaged lower, but there was no such outpour of stocks as professional bear traders had predicted, and the support which appeared in stocks like Union Pacific and the Steel issues conveyed the impression that the large financial interests had not changed their attitude. At the same time there was no attempt to rally prices, and the advances which occurred were mainly the result of covering shorts.

Among the specialties, there was heavy buying of Locomotive common by one prominent trader and the stock advanced to 80⅝, closing with a net gain of ⅞ per cent. Wabash preferred closed at a net decline of 1¼ per cent, the selling probably representing liquidation on the part of traders who bought on the expectation that the fight for control of the system might lead to competitive buying. The largest gain, and for that matter the largest net change, was in Pacific Mail, which opened at 45, advanced to 46¾ and closed at 46½, an advance of 1½ over the previous day. The strength was based upon the action of the American Bankers' association in passing a resolution embodying the ship subsidy principle and pledging the influence of the association toward congressional action in rejuvenating American shipping.

The money market remained firm all day at 6@6 per cent, the final loan to stock exchange borrowers being at 6 per cent. Gold to the amount of $2,650,000 arrived during the day consigned to the National City bank, and that institution was a lender on call to the extent of at least $2,000,000 at 6 per cent.

The weekly reports of the foreign government banks were favorable. The Bank of England reported a decrease of $20,510,000 in loans, and a decrease of about $2,000,000 in gold reserve, but the percentage of reserve to liability increased, standing at 41.47 per cent, as compared with 38.50 per cent last week. The report of the Bank of France showed a decrease of $12,000,000 in general deposits, a decrease of $3,130,000 in loans, and a decrease of $3,245,000 in gold.

Wall street has somewhat reluctantly given up the hope of any particular change in the money market until late in the year, and it has necessarily abandoned the expectation of a big bull market before the meeting of congress in December. The feeling now is that for the next six weeks there will be merely a trader's market, with a narrow "swing" to prices, the upturns coming when the short interest increases, and the downturns being based upon liquidation of fired holders.

The tone of the local stock market was distinctly firmer, although the dealings were congested in a few stocks. Crucible Steel common was strong, advancing to and closing at 13¾, a net gain of ½ per cent. The preferred advanced to 67½ and closed at 67¾, a net advance of 1 per cent. The strength was based upon a report that the company had notified some of the holders of its notes that it was prepared to anticipate payment of principal and interest this month. National Fire Proofing common rallied to 6¾ and the preferred to 22⅜, and both closed firm at the advance. The market closed before the meeting of the directors to take action on the dividend, and the passage of the latter was not made public until after 5 o'clock. In the remainder of the list the dealings were light and price changes unimportant. Transactions in bonds included $5,000 Independent Brewing 6s at 106¾, an advance of ¼ per cent. Safe Deposit and Trust sold unchanged at 400.

NOTES AND COMMENT.

The directors of the National Fire Proofing Company yesterday passed the dividend on the preferred stock. The meeting at which this action was taken lasted nearly two and a half hours, and after its adjournment Secretary C. G. Jones declined to give any information as to the nature of the discussion, aside from the statement that the dividend had been passed. When asked if the board of directors would issue a formal statement to stockholders setting forth the reasons for the suspension of dividends and the present financial condition of the company, he shook his head and stated that the board had not authorized the preparation of any statement to be made public. In this respect the company is following the policy adopted in November, 1903, when the dividend on the common stock was passed, and no report was made to stockholders until the following February, when the annual meeting was held. The passage of the dividend yesterday, however, has been foreshadowed for weeks past on the stock exchange, where the price of both the common and preferred stocks declined to the lowest level of the year. In yesterday's market there was a slight recovery from the extreme low price, possibly on the belief that the directors would reduce the dividend instead of passing it entirely. While no official information as to the financial condition of the company warranting the action of the directors is obtainable, it is known that disappointment was encountered in the attempt to float a bond issue, from the proceeds of which it was intended to liquidate a large floating debt incurred in the purchase of additional properties, and to increase the working capital rendered necessary by the current increase in business. It is inferred that a majority of the directors decided it would be better to temporarily suspend dividends than to sell bonds at a heavy discount. There was some difference of opinion among brokers as to whether the decline in the preferred stock had fully discounted the passage of the dividend. The market today will remove all doubt on this point.

The principal activity in the New York stock market yesterday was while prices were declining. During the first two hours the sales exceeded 450,000 shares, while for the remaining three hours they were less than 250,000 shares. The recoveries were due in large part to the taking of profits by bearish traders who had sold short earlier and there was no revival of genuine speculation or any advance except in the case of a few stocks which are in the hands of speculative pools. The relaxation of the selling pressure was due in part to the interpretation of several incidents as indicating a benevolent attitude toward the market on the part of a powerful group of capitalists, whose opinion was supposed to be represented in the address of Vanderlip which so disturbed sentiment yesterday. For one thing, the stocks in which this group of capitalists is supposed to take a peculiar interest were inclined to resist the prevailing depression. Amalgamated Copper among the industrials and St. Paul among the railroads were the conspicuous examples. When the money rate opened at 6 per cent the fears began to be felt that it would rise above that, practically unlimited amounts were offered at that rate by the National City bank. It was inferred from this that a corrective was designed for the impression created in speculative circles by the paragraphs in the banker's address which were made most of in the market on Wednesday. Speculative opinion was inclined to take the ground that while a warning against speculative excess was intended there was no desire to convey a distrust of the present level of prices. The motives of the trading will be seen from these examples to have been largely inferential. The large arrivals of gold, amounting to $2,650,000, were consigned to the bank which made the principal loans on the stock exchange.

The time money market in New York was very firm and it was reported that lenders were inclined to scrutinize more closely as collateral some of the industrial securities in which there have been recent active speculative movements. The retention of the Bank of England rate was coupled with the expressed opinion from London that an advance might be necessary later. The heavy engagements to the bank for the week disclosed by the weekly statement, the decline in the bullion reserve, a further rise in discounts in the open market both in London, Paris and Berlin, and a turn in the continental exchanges against London were all incidents showing the continued pressure of the London market. Foreign exchange rates were well held in New York in spite of the rise in money rates. New York exchange at Chicago, however, rose to 10 cents premium.

Notice was received yesterday by some of the holders of Crucible Steel collateral trust 6 per cent bonds that the interest and principal of the latter would be paid October 21. Some of these bonds are held by individuals and others by financial institutions. Immediately as they are now regarded as a first-class security, holders have been disinclined to permit of the anticipation of payment unless interest to maturity is paid in full. The annual report of the Crucible company, published last week, showed cash on hand of nearly $500,000 as of August 31. Since then the company has received possibly $300,000 cash from collections on accounts and bills receivable, so that it probably has between $500,000 and $600,000 applicable to the prepayment of debt which will be made on the first. It will still retain a sufficient cash working balance. It is thought that the strength of the common and preferred stocks yesterday was based upon knowledge that the company is still anticipating the payment of debt wherever possible.

The last annual report of National Fire Proofing, which was for the fiscal year ended December 31, 1904, and was submitted at the stockholders' meeting February 9 last, showed total floating debt and mortgages of $1,524,996, on the other side of the account the cash and bills and accounts receivable foot up $1,708,986, showing an excess of the latter over the former of $73,511. The same annual report showed a surplus of $1,291,044, this sum remaining after the usual allowance for the replacement of plants and an arbitrary allowance for depreciation of $500,000. In view of this showing stockholders would no doubt be interested in learning what financial operations were transacted at the last annual meeting, which forced the directors to choose between passing the dividend on the preferred stock or issuing bonds at a heavy discount.

The comptroller of the currency has approved the Cosmopolitan National bank of Pittsburgh, Pa., as depositary for lawful money reserve of the First National bank of Clarion, Pa.

Masten & Co. and Speer & Co. were the largest buyers of Crucible Steel on the advance. The selling was scattered. Sproul & Co. were large sellers of National Fire Proofing preferred during the early part of the day.

The Wisconsin Central railway reports for the fiscal year ended June 30 last a surplus over fixed charges of $892,544, as compared with $424,247 in the previous fiscal year. The total surplus on June 30 last was $893,595, from which $469,947 was appropriated for improvements, bond redemptions and the retirement of equipment trust bonds, leaving a net surplus to be carried forward of $423,642. New lines are projected which are expected to considerably increase the revenues of the company.

The Toledo Railway & Light Company has declared a dividend of 1 per cent, payable November 1.

The Columbus Railway Company has declared a dividend of 1¼ per cent on its preferred stock, payable November 1 to holders of record October 15.

The Grand Rapids Railway Company has declared the regular quarterly dividend of 1¼ per cent on its preferred stock, payable November 1 to holders of record October 18.

The directors of the Pacific Coast Company have declared a regular quarterly dividend of 1½ per cent on the common and second preferred, being an increase of one-fourth of 1 per cent in each case over the last previous dividends. They also declared the usual quarterly dividend of 1¼ per cent on the first preferred stock. All three dividends are payable November 1.

The special movement in Chicago Terminal stocks was due to a public report of their control. Wisconsin Central was also strong under the influence of the report of an Illinois project in that property.

The recent weakness in the common shares of the Kansas City Railway & Light Company appears to grow out of the reports that the Kansas City council has been asked to grant a charter to a natural gas company which will agree to sell its product for 25 cents per 1,000 cubic feet.

A dispatch from Philadelphia says: "Some new stock may be put out by the Philadelphia Company, according to a report which was circulated today. The proceeds would be used to pay for recent trolley acquisitions of the Pittsburgh Railways Company in and around Pittsburgh. The company has outstanding $39,845,000 common stock of no-par value and $10,000,000 preferred. The purchase control of the stock, it is said, is to be offered to shareholders when the market price of the stock gets above par."

Foreign Money Market.

LONDON, Oct. 12.—Money was in good demand in the market today and rates were easy, supplies probably will be much wanted tomorrow in connection with stock exchange pay'ny. The comparatively abundance of money and not inconsiderable discounts, which were drawn owing to the conditions of French exchanges, which is now practically normal, operations on the stock exchange were less cheerful, mostly being occupied with the settlement. The feature of the movements was the relapse of American cotton and home rails were dull. Americans opened weak in response to New York and in connection with the speech of Frank A. Vanderlip before the American Bankers' association at Washington yesterday. They moved to above parity at noon and afterward sagged. The decline was accompanied by New York selling and rumors that two firms in New York were in difficulties. The market closed dull, with prices weak and for lowest quotations of the day. Canada for money, 2@2½ per cent; consols for account, 88⅞. Bar silver firm at 25¾d per ounce. Money, 2@2½ per cent. The rate of discount in the open market for short bills is 2⅝ per cent. The rate of discount in the open market for three months' bills is 2⅝@2⅞ per cent.

PARIS, Oct. 12.—Prices on the bourse today were firmer in tone. The Bank of France's further losses of 3,639,000 francs gold is commented upon as indicating renewed exportations of gold. Exchange on London, 25 francs 19½ centimes for checks.

BERLIN, Oct. 12.—Prices on the bourse today opened weaker and continued depressed without striking changes. Exchange on London, 20 marks 47½ pfennigs for checks. Discount rates for short bills, 4½ per cent; three months' bills, 4⅝ per cent.

STOCKS DECLINE EARLY AND FEEBLY RECOVER

Notes of Warning from the Bankers' Convention Have Depressing Effect.

(By Private Wire to The Gazette.)

NEW YORK, Oct. 12.—The Herald this (Friday) morning says: Stocks yesterday, after an early sharp decline, underwent an irregular but, upon the whole, a rather feeble depression. Prices were variably changed as the day, with sales and business almost weekly proportions, disappointed the bull, but with closing figures above the lowest of the day. Trading seemed to be very largely professional, except for some speculative liquidation in the early dealings.

The market appeared entirely controlled by the various points of antagonism and the progress of warring sentiment as the conference of bankers at Washington on Wednesday. The speculative element seemed more inclined than on the previous day to take note of the optimistic utterances, which were interspersed with the warnings. The public, however, naturally enough, was much impressed by the warnings, and in view of the unsatisfactory money situation and the high prices which officially announced was a negligible factor in the day's dealings.

The news of the day dealt chiefly with developments in the money markets. There were somewhat mixed in character, but they had little or no influence on the stock market, except as the hardening tendency seemed to confirm the desirability of hoarding for the crisis being the conservative warnings issued from Washington. The market was controlled almost entirely by the same influences that were at work on the preceding day.

The chief topic of discussion was the cautionary words uttered at the Washington bankers' meeting on Wednesday, but it was clear that these were more influential in checking public buying and speculative operations for the advance than in forcing liquidation. Some unfavorable comments were passed upon the failure of certain warnings from producers to furnish statistics of output, which has compelled the treasury authorities to give up the compilation of farmers' stocks.

R. S. DAVIS & CO. TO MOVE NEXT APRIL

Will Go to 441 Wood Street. Railroad Company May Take 346 Fifth Avenue.

EAST END REALTY DEALS

The firm of R. S. Davis & Co., which has been selling books and stationery at 346 Fifth avenue for years, has leased through the Samuel W. Black Company the four-story brick building at 441 Wood street, which it will occupy after April 1, 1906. The lease is significant in more than one respect. The rent charged for the Fifth avenue location is said to be considerably more than a retail firm can afford to pay and it may be for this reason that the Davis company has decided to move. Still more significant is the fact that the Pennsylvania Railroad Company is said to be after the property at 346 Fifth avenue, which is generally known as the John Rodgers holdings. It is stated in railroad circles that the Pennsylvania will not keep its ticket offices at the corner of Fifth avenue and Smithfield street longer than next spring, inasmuch as Harry Davis, if he finally gets possession of the corner under the lease which he made some time ago, will have to charge more than $20,000 a year for the building in order to get out even. This is at least double the rental now paid by the Pennsylvania according to reliable information. The room vacated by the Davis company affords the railroad company nearly as good a location, in the opinion of most ticket men, as that it now occupies, and it is not at all unlikely that a deal for its lease to the Pennsylvania may be signed soon.

Two New Automobile Garages.

Plans are being prepared for two big automobile garages to be erected in the East End. One will be built by a new company, called the Central Automobile Company, composed of Edward G. Mooney and Edward Seely. Plans for the building are being prepared by Architect J. E. Obitz and its cost is estimated at $15,000. It will be a one-story brick structure on a lot 50x115 feet, in Broad street, near Euclid avenue.

The other building will be erected by the Atlas Automobile Company and will be a two-story and basement concrete structure, 85x120 feet. A deal for the site has got so far as into orphans' court, and if it is approved there the building will be started at once. It will cost $25,000 and will have storage room for over 300 cars.

W. O. Wright has sold another of his new houses in the East End for $18,000. The residence disposed of is a 12-room center-hall brick house finished in hard wood and stands on a lot 53x100 feet at 5515 Margaretta street, near Negley avenue. The buyer's name could not be learned yesterday.

Samuel McCaslin has also disposed of another of his new residences in Pacific avenue to A. J. Friday, the Fifth avenue drygoods merchant. The price was $10,500 and the house is a 10-room reception hall brick on a 40-foot lot.

Lucky Buy in Lincoln Avenue.

Some idea of how property values are advancing in even the out-of-the-way districts of Pittsburgh is gained from the sale of five lots in Lincoln avenue, Twenty-first ward, which netted the owner, Thomas J. Hawkins of the Real Estate Corporation, over 400 per cent profit on a four years' investment. In 1901 he bought the 125x100 feet for $1,375 and yesterday he sold it through the agency of Davies & Green for $9,000. The buyer is Hugo E. Lersch who, it is said, will improve the lots with good houses.

Through the office of A. Z. Byers & Co. E. F. Guthrie has conveyed to Ward Bonsall a fine residence property on the south side of Elgin avenue, Ninth ward. Mr. Bonsall intends to be occupied by the buyer as a home. The consideration named in the deed is nominal. The residence is a modern brick house of eight rooms on 47x105 feet.

Charles L. Walther of the Walther-Robertson Drug Company has received his deed for the Harvey H. Smith lot, 60x80 feet, at the southwest corner of First avenue and Cherry alley, the consideration being $100,000, as published when the deal was made three weeks ago. The contract has already been awarded for an eight-story brick warehouse to be erected on the site for the use of the drug company.

Hyman Saul has purchased two properties in the Twenty-eighth ward for $10,500. One is an improved lot, 20x120 feet, located on the south side of Bingham street, near Fourteenth street, which belonged to Mathilda P. Nolte, and brought $5,500. The other lot, adjoining and of the same size, was secured from Ferdinand J. Miller for $5,000.

John H. Guniff has sold to W. H. and J. C. Craig an improved lot, 60x30 feet, at the northwest corner of Lyon and Cherokee streets, Thirteenth ward, for $11,750.

More New Realty Firms.

The East End has a new real estate firm to be known as F. G. Conley & Co., which has opened a handsome suite of offices at 118 Sheridan street. The members of the firm are F. G. Conley, who was for three years with S. H. Lloyd, and later one year with the firm of J. A. Young & Co., and Fred C. Bell, who has been for some time with the last-named firm. The new firm will take care of all branches of the real estate business and will make a specialty of East End property.

POTATOES TO BE HIGH ON ACCOUNT OF ROT

Light Receipts of Grapes Force Another Advance—Lima Beans Are Higher.

The thrifty man of family who is wont to store his cellar in the fall after the manner of farmers' wives little to hope this year in the way of good potatoes. With quotations at 65c and 70c in the midst of the potato season, dealers are predicting that an early advance is imminent. This is due to the fact that the quality of potatoes in most of the big districts is unfavorably poor this year. From many points come reports that potatoes are rotting and have been for six weeks. Western potatoes are included under this head, and dealers look for all sorts of trouble with them when they come into market in large quantities. Thus far the complaint about rotting has been confined mainly to the larger dealers, who see the crop as it comes direct from the fields, but it is said that when the householder begins to stock up with potatoes that he wants to keep all winter he will be badly disappointed in both the price and the stock.

Light receipts of grapes forced the price up again yesterday. A shortage of cars is the excuse given by some wholesalers for the apparent shortage, for they say that there are still plenty of grapes at the vineyards. Lima beans went up several notches and are now quoted at 25c and 30c a quart. The better quality of peaches are scarce in market and are bringing a stiff price.

HAY AND GRAIN.

Receipts.

Receipts yesterday were: Pennsylvania lines, 27 cars hay, 27 cars oats, 5 cars corn. Baltimore & Ohio, 3 cars hay, 4 cars oats, 2 cars rye. Pittsburgh & Lake Erie, 11 cars hay, 2 cars oats, 1 cars rye, 1 car corn.

The market continues active. Arrivals are picked up quickly and hay is advancing in price. Clover hay is scarce. Shelled corn is active and higher. Quotations for feed remain unchanged.

Wells in Low r Southwest Field Are Showing an Improvement

The completions reported from the lower southwest fields show a great improvement in the area over the general run from that quarter for the past few days. On Fish creek, Union district, Wetzel county, Conahan & Funk have drilled their test on the J. F. Coulage farm through the fourth sand and the well produced 60 barrels, natural, the first 24 hours. In the same locality Brant & Cairney have made the location for a second test on the A. Kiger farm. On Knob Fork, Clay district, Wetzel county, the Hope Natural Gas Company drilled its test on the Albert McMechens farm into the second Gordon pay and the well produced 45 barrels the opening 12 hours. On Clear Grass run, Church district, the Carnegie Natural Gas Company has drilled its test on the J. W. Snyder farm through the fourth sand and has a gusher. On the same stream and in the same district the Hope Natural Gas Company has drilled its test on the William Stocking farm through the Gordon and Fifth sand. On Fish creek, Lincoln district, Marion county, the Hope Natural Gas Company has drilled its test on the W. R. Brand farm into the Big Injun and has a very good gasser.

In the Pine Grove extension, Wetzel county, the South Penn Oil Company has drilled its No. 23 on the Swearingen heirs' farm 40 feet into the sand and has developed a very light show of oil. In the Salem district, Harrison county, the South Penn Oil Company has completed a second test on the Lloyd Randolph farm and has a producer good for 60 barrels a day in the Gordon. On Rock Camp run, Hardin district, the same company, the South Penn Oil Company has drilled its test on the J. W. Edsell farm 15 feet into the Gordon and the hole has filled up 1,000 feet with fluid. The indications point to a light producer. It is still drilling. To the southwest of the test on Judge Goff's No. 40 is holding up at 45 barrels a day.

On the Ohio side, in the Weatherhold district, Monroe county, operators are finding some very good producers. W. C. Mellrath & Co. have completed their test on the P. Newhart farm and have a producer good for 200 barrels a day from the Berea grit at a depth of 2,115 feet. In the same district the Pure Oil Company has completed its No. 4 on the M. Fetner farm and has a show for a 50-barrel producer. In the Jerusalem district, same county, Mooney & Co. have drilled their test, a gasser, on the Mary J. Simmeral farm deeper into the Big Lime and have a show for a one-barrel producer.

In the Marietta district, Washington county, George L. Cralle & Co. have completed their No. 2 on the Shepard heirs' farm and have a 15-barrel property. In the same district Stinchcomb, Johnson & Co. have completed No. 3 on the Reuben Reese farm and have a 10-barrel pumper. In the Parker district, same county, William Hasler has completed No. 2 on the J. D. Lindsey farm and has a 10-barrel pumper in the first Upper Run sand. In Northeast district, same county, the Three Oils Oil Company of Allegheny, Pa., has drilled in a test on the I. A. Tallman farm and has a producer good for 30 barrels a day in the Berea grit. The bottom of this test is north and in advance of the producing wells of the Boston-Bethel Company on the Brenner farm.

In Grant township, Allegheny county, McCune & Co. are the contractors on the Wallace farm. This well is located in advance of any production and may be regarded as of some importance. In the Salem district the South Penn Oil Company has drilled its No. 4 on the J. D. Law farm into the Gordon and it is showing for a 30-barrel well.

In the Pennsboro district, Ritchie county, H. G. Crumbley has drilled his No. 27 on the West Virginia oil tract into the strata above the salt sand and has a five-barrel pumper. In the same district the Mount Penn Gas and Oil Company has completed its No. 6 on the Mount tract and has a producer good for 10 barrels of salt water. In the Ohio district, Wetzel county, the Mehoca Oil and Gas Company has given its No. 11 on the T. H. Bond farm a shot in the Big Injun, and is reported to be producing 60 barrels the first 24 hours. In the same district the Carter Oil Company's No. 3 on the Matthew Kerr farm and No. 2 on the H. C. Whitsell farm, are producing 75 and 40 barrels, respectively. Edwards, Davis & Trees' No. 5 on the C. L. Bellman farm is holding up at 30 barrels a day.

COKE TRADE LOOKS BETTER.

HARRY C. YOUNG BECOMES D. P. A.

Pittsburgh Passenger Agent Steps Up to Head of Rock Island at Cleveland.

B., R. & P. DIRECTOR HERE

Harry C. Young has been appointed district passenger agent of the Rock Island-Frisco system at Cleveland, effective November 1. Mr. Young left Pittsburgh last evening and will spend the next two weeks in vacation and in acquainting himself with his new territory.

Mr. Young is one of the most widely known of the younger circle of passenger agents in the country. He has been in Pittsburgh as traveling passenger agent for the Rock Island-Frisco system for several years and has gained a wide acquaintance. He has also been an ardent and untiring worker for his system, often going far out of his way to secure business where another would have let it go to the other passenger man. His promotion comes as a pleasant surprise to his many friends, although it was known that he was in line for advancement.

He succeeds Thomas J. Clark at Cleveland. Mr. Clark has been appointed southwestern immigration agent of the system at Oklahoma. No successor has been named for the position of traveling passenger agent in Pittsburgh by District Passenger Agent G. L. Pentecost. It is understood that a man from St. Louis is slated for the job.

Exposition Travel Is Heavy.

"When the fever for county and town fairs began to put itself into evidence this summer, with demands for passenger rates from nearby towns on the railroads, we thought that probably the Pittsburgh exposition was a doomed institution so far as the attendance from out of the city was concerned," said a passenger man yesterday. "From the time of the first excursion into Pittsburgh, however, we had opportunity to change our view of the situation. The crowds on the regular excursion days, as the registers of the hotels will show, have been enormous. These excursions, as well as the regular train service into Pittsburgh, has been far better patronized than we had anticipated, and far better than last year.

"This is evidence sufficient, I think, to justify the word that the Pittsburgh exposition has become firmly established as a distinctive institution of Pittsburgh and this district."

The same expression came from passenger agents of the other Pittsburgh lines, all being gratified with the large traffic to the city for the exposition. One of the agents said that the Merchants and Manufacturers' association has done much for the good of the exposition, as well as for the mercantile interests of Pittsburgh. All of the agents said that the out-of-town fairs had not detracted a while from the Pittsburgh exposition attendance. The last Thursday and Saturday excursions for the exposition traffic will be run next week.

B. R. & P. Director Inspects Road.

C. O'D. Iselin, one of the directors of the Buffalo, Rochester & Pittsburgh railway, arrived in the city yesterday, accompanied by a Mr. Brown of New York, and by his son, Louis Iselin, the latter's wife, and Arthur Iselin, a nephew. It was reported to Pittsburgh Wednesday that President A. G. Yates and the other directors and officers of the company were coming to Pittsburgh in the party, but this official inspection trip will not be made until a few weeks from now. Mr. Iselin is simply making his usual personal inspection of the properties and is spending more time on the system than is spent by the official inspection party. He conferred with Division Freight Agent Harry C. Watson and Division Passenger Agent C. O'D. Pascault yesterday, and will leave today to inspect the New Castle branch and the extension that is being built at New Castle. Mr. Iselin had nothing to say regarding the proposition of the company to extend the Ridge branch from Iselin, in the southern part of Indiana county, on down through the upper corner of Westmoreland county and through Allegheny county to Pittsburgh. The distance from Punxsutawney to Pittsburgh by the route proposed is about 90 miles, and of this distance 45 miles is now covered by the Indiana and Ridge branches from Punxsutawney to Iselin.

U. S. Express on Pere Marquette.

The United States Express Company officers are busily engaged in preparing for the installation of their service on the lines of the Pere Marquette railroad November 1. This company also operates on the Cincinnati, Hamilton & Dayton. These are the two roads that were included in the purchase by the Erie railroad a few days ago. The Wells-Fargo Express Company operates on the Erie, but it is said officially that the purchase of the Great Central system by the Erie will not interfere with the express contracts of the United States company, as these were ratified before the sale was made. The United States company has been compelled to add extra cars this fall on its lines, to care for the growing traffic and the Baltimore & Ohio has just added another car for the service between Parkersburg and Zanesville. General Agent Fred Troubeben said yesterday that the express traffic has never been known to continue as heavy as in the present year. The Baltimore & Ohio will install the "oyster express" train between Baltimore, Pittsburgh and Chicago next Sunday. This is a special train that is run daily except Saturday to care for the oyster business through the winter season.

Good Reports for Southern Lines.

President Samuel Spencer of the Southern railway and President George W. Stevens of the Chesapeake & Ohio railway have included some interesting paragraphs in their annual reports. In President Spencer's report appears the following data regarding the industrial expansion of the south along the Southern railway: "Along the lines of the Southern railway during the year there were completed and put in operation 46 textile mills, 34 furniture factories, 28 iron industries, 6 tanneries, 77 stone quarries and coal mines, 13 cottonseed oil plants, 8 fertilizer works and more than 500 small industries. Over 250 previously existing plants were enlarged and 64 new industries were under construction at the close of the year. Immigration, too, and the investment of foreign capital in the territories served by the company's lines, during the year exceeded any previous year in the history of the company.

Baggage Men Are Dog Fanciers.

There are a number of men connected with the baggage department of the Pennsylvania system in Pittsburgh who are dog fanciers of more than the amateur kind. Since one of the men took a liking to fine dogs, others have followed and now the men vie with each other to have the finest kennels. A. W. Green, one of the checkmen at the Union station, won several prizes with his Scotch terriers at the Burgettstown fair. Among others who have fine kennels are Harry Melvin and Michael Cooley Maloney. The Pittsburgh dog show will doubtless have patronage from these men.

Railroad Notes.

M. D. Brabant, general eastern agent of the San Pedro line, was here from New York Wednesday.

It is reported that William Dean of the Erie traffic offices here has become a Benedict and is now living with his bride in Bellevue.

The Pennsylvania has let a contract for a hood for the passenger station on the West Penn division at Aspinwall. It will be 320 feet long.

E. E. Scott has taken service again as stenographer in the general passenger offices of the Pennsylvania lines. He was stationed at Cleveland for some time and until recently was in the Wabash offices here.

William Sinram, the veteran baggage master of the Cleveland & Pittsburgh division of the Pennsylvania lines, was operated on for appendicitis at the West Penn hospital, and is said to be in a critical condition.

John E. Smart, who is superintendent of dining service of the New York Central, Lake Shore and Pittsburgh & Lake Erie roads, has had his jurisdiction extended over the Michigan Central. His headquarters are at Buffalo.

B. A. Worthington, vice president of the Wabash lines east of Toledo, returned from the Toledo meeting yesterday. He was accompanied by General Superintendent H. W. McMaster. George J. Gould has set no date for his visit here.

Robert Pitcairn, resident assistant to the president of the Pennsylvania, and Superintendent S. C. Long of the Pittsburgh division, are in New York attending a meeting of the committee on train rules of the American Railway association.

Miss Annie Lawler, who was parcel clerk at the Pittsburgh & Lake Erie station for the past couple of years, was married yesterday at Sterling, Ill., to William Ashley of Greenville. Miss. A handsome silver set was presented to her by the depot force.

A. R. Raymer, assistant chief engineer of the Pittsburgh & Lake Erie, was in Chicago yesterday attending a meeting of the committee on buildings of the American Railway Engineering and Maintenance of Way association. He is chairman of the committee.

J. B. Drake, traveling passenger agent of the Burlington, is boosting the "White Ribbon special," a train that will be run by his road from Chicago to Los Angeles for the W. C. T. U. convention. The train will leave Chicago October 18. On it will be a large patronage from Mr. Drake's territory.

When the special train bearing President A. J. Cassatt and the Pennsylvania directors and officers is in Pittsburgh next week, it will have direct telephone connection with the city and long distance service. This service has been enjoyed a number of times in this district and has been a feature of the Northwestern line's Overland limited for the past four years.

ANOTHER TUNNEL GETS A CHARTER

Air Line Tunnel Company Given Privilege to Build Underground Line.

OBJECTORS GIVEN A HEARING

Another tunnel charter was granted to a Pittsburgh concern yesterday by the state department at Harrisburg. The latest charter is for the Air Line Tunnel Company, with a capital stock of $5,000. Attorney Horace F. Baker of Pittsburgh, is named as the holder of the controlling interest in the company. Attorney Baker is connected with Attorney A. O. Fording, and the Air Line Tunnel Company is one of the companies in the Fording-Morse tunnel syndicate.

The tunnel for which the charter was granted yesterday will begin beneath the intersection of the eastern line of Grant street and the southern line of Webster avenue, and run to the westerly line of Melwood avenue, 413 feet from the northerly line of Center avenue.

A hearing was held at the state department yesterday in connection with the protests of the Bates Street Railway Company and the Bellefield Street Railway Company against the granting of the charter to the Mawhinney Street Railway Company, and also on the protests of the incorporators of the Mawhinney company against the granting of an extension of the route of the Bellefield company. The decision was reserved.

Objections on Both Sides.

The Bates company objected to the charter application of the Mawhinney company on the ground that the latter sought to occupy certain streets, the exclusive right to occupy which has already been granted by the commonwealth and by city councils to the Bates company, in which territory the Bates company has already laid a portion of its tracks.

The Bellefield Street Railway Company also objected to the granting of a charter to the Mawhinney company because of a conflict in the route of the latter with an extension of the former previously filed.

The Mawhinney company objected to the granting of the extension of the Bellefield company, claiming that prior to the filing of the extension of the Bellefield company it had given public notice of its intention to apply for a charter with a part of the route of which the Bellefield extension conflicted, and that by virtue of this advertisement it had secured a vested right to the route.

William C. Farnsworth and Edward H. Wert of Harrisburg, appeared for the Bates Street and the Bellefield Street Railway companies. The Mawhinney company was represented by Arthur O. Fording of Pittsburgh.

Fight in Court Is Likely.

It is understood that the fight for subway privileges will be taken into the courts, when either of the rival interests, the one headed by Senator William Flinn and the other owned by the Fording-Morse syndicate, makes its first move.

The Fording-Morse people maintain that the granting of the Fifth avenue tunnel charter to Flinn interests blocks the former's proposed downtown subway system, which was intended to cross Fifth avenue under Smithfield street. The court fight may not begin until either of the combinations of capital makes the first move toward constructing a system, or applies to the city councils for whatever franchises may be necessary.

"Babes in the Wood."

An idea of the immensity of the stage spectacle "Babes in the Wood," which comes to the Belasco next week, can be better understood when it is known that it takes seven baggage cars to transport the scenery, properties and costumes, and that in the manipulation of the scenery it will require 35 stage carpenters, 14 property men and 12 cleaners, to say nothing of the various heads of departments, which will run fully 10 more.

Six Cases of Typhoid.

Six cases of typhoid fever and five of diphtheria were reported to the bureau of health yesterday.

C. & O. Statistics.

Lutherans in Session.

MILWAUKEE, Oct. 12.—Nearly 200 ministers and lay delegates representing 12 synods of the Evangelical Lutheran church of North America were present today when the annual convention of the general council opened. At this meeting strong efforts will be made to promote the English branch of the church.

GOOD WATER FOR THE SOUTH SIDE SUBURBS

Work Is Progressing Rapidly on Filtration Plant of South Pittsburgh Company.

Residents and property owners in the South Side suburbs are hoping all sorts of good things from the new filtration plant which is now being erected for them by the South Pittsburgh Water Company. The plant which is being built under the supervision of Engineer John Chester of the American Water Works and Guarantee Company, is at Agnew's lane, about 1.5 miles out from the Knoxville office of the company, on the Brownsville road. It was started last May and for months the pay roll averaged nearly $6,000 every two weeks. The total cost of the filtration plant will be at least $300,000, excepting the water mains and pipe lines which will cost probably $200,000 more.

The plant will have a capacity of 10,000,000 gallons of water daily. Over three miles of new pipe lines have already been laid and the superstructure of the plant itself is just being started. All the work is being done by the Pittsburgh Construction Company. The plant will be 450x200 feet in size, and the depth of the basin will be 15 feet. Every one of the 14 filters is of solid cement and the general construction of the plant is after designs that have proven successful in other large cities. Mechanical and sand filtration will be used.

It is expected that the plant will be able to furnish water next June. It will supply Knoxville, Carrick, Mt. Oliver, Greenfield, Sheraden, Crafton, Ingram, Bridgeville, West Homestead and Hays boroughs, and Chartiers, Baldwin and Lower St. Clair townships. For years the lack of pure water in these places has been one of the great drawbacks to property enhancement, and owners are already taking advantage of the better supply and service promised to add to the prices asked for their holdings.

CLOSE A MIFFLIN SCHOOL BECAUSE OF SCARLET FEVER

The Mifflin township school board met at Lincoln place last evening and decided to close the school at Aliquippa, which has 200 pupils, because of scarlet fever in that district. Director William Gibson reported 18 new cases in the village. Miss Carrie Hantz was elected a teacher for the Miller school.

Body Raw With Humor. Caused Untold Agony. Doctor Did No Good. Mother Discouraged.

CUTICURA CURED AT ONCE

"My child was a very delicate baby. A terrible sore and humor broke out on his body, looking like raw flesh, and causing the child untold agony. My physician prescribed various remedies, none of which helped at all. I became discouraged and took the matter into my own hands, and tried Cuticura Soap and Cuticura Ointment with almost immediate success. Before the second week had passed the soreness was gone, not leaving a trace of anything. Mrs. Jeannette H. Block, 281 Rosedale St., Rochester, N. Y."

BELLEVUE EXTENSION

OPENS TODAY---$5.00 TO $15.00 PER FOOT.

THE safest and surest thing for a man to invest in is real estate---and where in the world can you find better real estate than right here in Greater Pittsburgh?

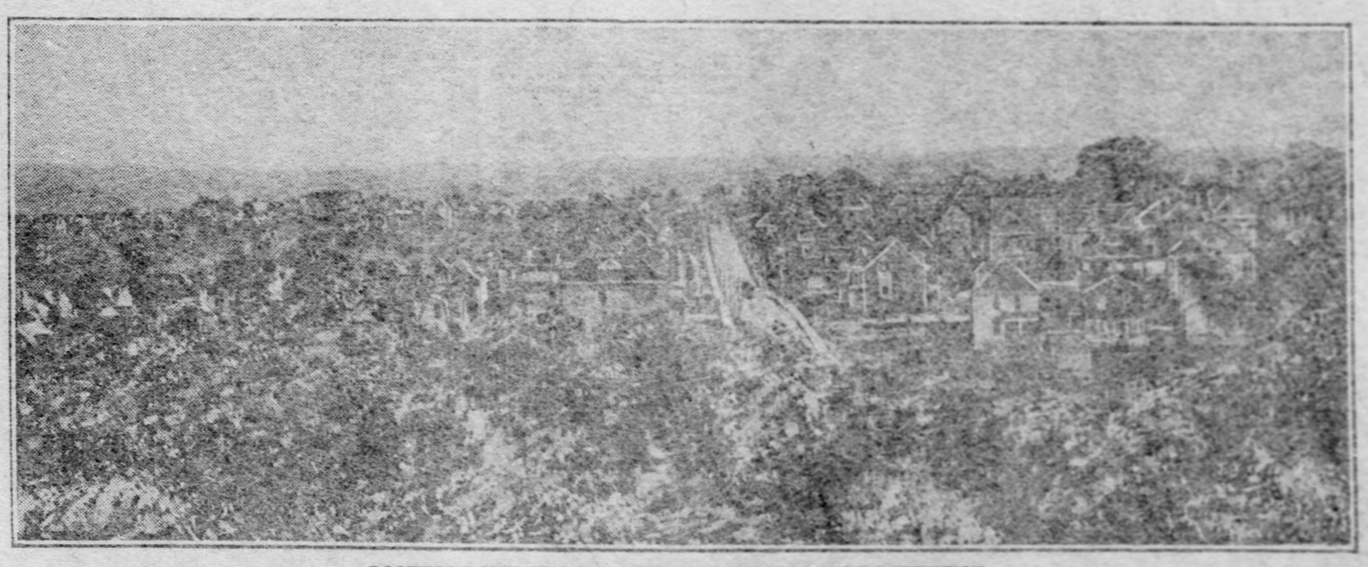
Every dollar invested in a new manufacturing plant, mercantile establishment, bank or office building, directly or indirectly adds a certain amount to the value of every foot of land in the city, no matter whether it be in the center or outskirts. This is sound finance, not the other sort.

Observe what financiers of the first rank are doing today—men who have made millions out of Pittsburgh's industries. They are putting the bulk of their fortunes right back into the land on which Pittsburgh is built.

Of course, only a few of us are millionaires, but the poorest among us can lay by a few dollars every month in a lot somewhere. The harvest is sure to come—early or late, it must come.

When we say that "Bellevue Extension" offers an excellent opportunity for small investors, we mean it. Look at Bellevue itself, how it has developed and gone forward in a few short years. Has it ever taken a step backward? Is it likely to? Its real estate values today average about $50 per foot for residence frontage.

Now this property which we are putting on the market this week is just one city block removed from the developed portion of Bellevue, and only five blocks from the center of the borough, with its churches, schools, banks, stores, police and fire protection, telephone service, etc., etc.



LOOKING DOWN THOMAS AVENUE FROM BELLEVUE EXTENSION.

We are offering our property at $5 to $15 per foot, *less than one-third* of the price in Bellevue proper. We are grading streets, putting in sidewalks, gas, water, etc., in short, we are putting it in shape for development.

Before many months it will be dotted with houses and the lot you bought for $5 to $15 per foot will have doubled or trebled in value. It doesn't take long for suburban residence frontage to reach $40 or $50 per foot. See how much of it you can buy for less in our best suburbs, or even in our second best suburbs.

Our terms are low enough to suit most people—10 per cent cash, 3 per cent per month, 10 per cent discount for cash in 60 days. We pay taxes and interest till you get your deed. A policy of title insurance goes with each lot.

There are moderate building restrictions all over the plan, intended to protect the property against inferior improvements.

Take a "Bellevue" Car, get off at Thomas and Forest Aves. and you will find yourself within 300 feet of the property
